

This is a digital copy of a book that was preserved for generations on library shelves before it was carefully scanned by Google as part of a project to make the world's books discoverable online.

It has survived long enough for the copyright to expire and the book to enter the public domain. A public domain book is one that was never subject to copyright or whose legal copyright term has expired. Whether a book is in the public domain may vary country to country. Public domain books are our gateways to the past, representing a wealth of history, culture and knowledge that's often difficult to discover.

Marks, notations and other marginalia present in the original volume will appear in this file - a reminder of this book's long journey from the publisher to a library and finally to you.

Usage guidelines

Google is proud to partner with libraries to digitize public domain materials and make them widely accessible. Public domain books belong to the public and we are merely their custodians. Nevertheless, this work is expensive, so in order to keep providing this resource, we have taken steps to prevent abuse by commercial parties, including placing technical restrictions on automated querying.

We also ask that you:

- + *Make non-commercial use of the files* We designed Google Book Search for use by individuals, and we request that you use these files for personal, non-commercial purposes.
- + *Refrain from automated querying* Do not send automated queries of any sort to Google's system: If you are conducting research on machine translation, optical character recognition or other areas where access to a large amount of text is helpful, please contact us. We encourage the use of public domain materials for these purposes and may be able to help.
- + *Maintain attribution* The Google "watermark" you see on each file is essential for informing people about this project and helping them find additional materials through Google Book Search. Please do not remove it.
- + *Keep it legal* Whatever your use, remember that you are responsible for ensuring that what you are doing is legal. Do not assume that just because we believe a book is in the public domain for users in the United States, that the work is also in the public domain for users in other countries. Whether a book is still in copyright varies from country to country, and we can't offer guidance on whether any specific use of any specific book is allowed. Please do not assume that a book's appearance in Google Book Search means it can be used in any manner anywhere in the world. Copyright infringement liability can be quite severe.

INTRODUCTION.

The Year-Book for 1897 consists of two parts, 1st, the "Record," and 2nd, the "Abstract."

Every effort has been made to secure accuracy and to introduce new features as the development of the country supplies additional material.

I have pleasure in recording the good work done by Messrs. J. Wilkins and J. Skead in connection with the compilation.

GEORGE JOHNSON, F.S.S. (hon.),

RECORD.

The earliest official records show that John and Sebastian Cabot, sailing under commission from King Henry VII. of England, landed in 1497 on that part of the present Dominion of Canada known as Cape Breton in Nova Scotia.

Gaspar Cortereal discovered and named the Labrador coast in 1500.

Jacques Cartier, of St. Malo, France, acting under the authority and patronage of Francis I. of France, discovered, in 1534, those portions of the Dominion of Canada now called New Brunswick, Prince Edward Island and Quebec, and on his return to France presented the King with the first official record there is of the existence of these regions.

Captain Cook in 1778 gave the first authentic record of the discovery of Vancouver Island and the Pacific Ocean coast of the present Dominion.

Frobisher, Hudson, Franklin, Richardson, Back, Mackenzie, Simpson, Vancouver and others, between 1576 and 1847, explored and named the north and north-west coasts of the Dominion.

Colonization was practically begun in 1605-8. In 1605 Baron de Pontreincourt established Port Royal (now Annapolis Royal, in Nova Scotia) the first actual settlement by Europeans. In 1608 Champlain founded Quebec.

The name Canada first appears in the "*Bref recit de la navigation faite en 1536-37 par Capt. Jacques Cartier.*"

By discovery, by occupation and by the Treaties of Utrecht (1713), of Paris (1763), and of Versailles (1783), all the country comprised in the Dominion of Canada became part of the British Empire.

The Dominion of Canada is about 3,500 miles from east to west and 1,400 miles from north to south.

It comprises the whole of the northern half of North America with the exceptions, on the west, of Alaska, and on the east, of Labrador, which latter is under the jurisdiction of Newfoundland, this colony not yet having entered the Canadian confederation.

Canada is bounded on the north by the Arctic Ocean ; on the west by Alaska and the Pacific Ocean ; on the east by the Gulf of St. Lawrence and Labrador ; and on the south by the Atlantic Ocean and the United States of America. The latter boundary (starting from the Atlantic seaboard) commences at the mouth of the St. Croix River, which empties into the Bay of Fundy, then follows this river and Lake Umbagog and passes due north until it strikes the St. John River ; thence by that river and one of its western branches it reaches the watershed between the St. Lawrence River and the Atlantic, which it follows by a tortuous south-westerly course to the 45th parallel of north latitude

in longitude $71^{\circ} 30''$ west ; then by that parallel it passes westward to the St. Lawrence River and along mid-channel of that river and of Lakes Ontario, Erie, Huron and the main portion of Lake Superior, to the mouth of Pigeon River ; thence by it and Rainy River it gains the north-west angle of Lake of the Woods ; thence it follows the 49th parallel to the Gulf of Georgia and thence passes by the Haro Straits and the Straits of Fuca to the Pacific Ocean. The length of this frontier line is 3,000 geographical miles, 1,400 miles being a water line by rivers, lakes and seas, and 1,600 miles being a land boundary.

In addition to this boundary line between Canada and the United States there is a boundary between Canada and Alaska (belonging to the United States by purchase from Russia in 1867). This line is in process of delimitation by joint commission.

The following table gives the names and the areas of the several provinces and territories of the Dominion, together with the dates of their creation or admission into the Confederation.

The principal physical features of Canada are the Rocky Mountains and the Laurentian range, the plains of the North-west Territories, the great lakes and Hudson Bay and the Bay of Fundy, and the Mackenzie River and St. Lawrence River basins.

The great inland lakes, five in number, form, with their connecting rivers, a complete system of navigation from the head of Lake Superior to the Atlantic Ocean, a distance of 2,384 miles. They cover an area of about 100,000 square miles.

Other lakes of large size are Great Bear, 11,200 square miles; Great Slave, 10,100 square miles; Winnipeg, 9,400 square miles; and Athabasca, 4,400 square miles.

The principal mountains are the Rocky Mountains in the west, extending from the Arctic Ocean to the United States; they contain the highest points in the Dominion, among the chief being Mount Hooker, 16,760 feet; Mount Brown, 16,000 feet; and Mount Murchison, 15,700 feet.

The principal rivers are the St. Lawrence (with its tributaries, the Ottawa, the St. Maurice, the Richelieu and the Saguenay), the St. John, the Restigouche and the Miramichi rivers, flowing into the Atlantic Ocean; the Mackenzie, Coppermine and Great Fish rivers emptying into the Arctic Ocean; the Saskatchewan and Red, the Nelson, Churchill and Albany rivers flowing into the Hudson Bay; the Fraser and Columbia emptying into the Pacific Ocean.

Hudson Bay is a large inland sea, having an area of 350,000 square miles. Including its two arms it has an extreme length north and south of 1,200 miles, and a width across the bay proper of about 600 miles.

The Bay of Fundy, 170 miles long, and from 30 to 50 miles wide, nearly separates Nova Scotia from New Brunswick, the connecting isthmus of Chignecto being about 15 miles wide.

The principal islands in Canada are Baffin Land, Prince Albert Land (which are the principal islands in the district of Franklin), Vancouver and Queen Charlotte Islands in British Columbia; Prince Edward Island, Cape Breton Island and Anticosti in the Gulf of St. Lawrence.

The climate varies greatly. The average mean temperature is—in Prince Edward Island, summer, 61·9 degrees F., and 19·5 in winter; New Brunswick, summer, 60 degrees, and winter 19·0; Nova Scotia, summer, 65·2, and winter 25·0; Quebec 58·3 summer, and 15·1 winter; Ontario, 63·0 summer, and 19·8 winter; Manitoba, 60·1 summer, and 19·1 winter; British Columbia, summer 61·1, and winter 32·4.

Representative institutions were granted by the British Government to Nova Scotia in 1758, to Prince Edward Island in 1770, to New Brunswick in 1785. Upper and Lower Canada were separated in 1791, the province receiving a Legislature. The Imperial Act creating the provinces contained the germ of responsible government which was brought into active exercise in 1841, when the two provinces were reunited. Responsible government was definitely established in the province of Canada in 1847. It was granted by the Imperial Parliament to Nova Scotia and New Brunswick in 1848, to Prince Edward Island in 1851 and to British Columbia in 1871.

The North-west Territories were governed at first under the administration of the Lieut.-Governor of Manitoba; then by a Lieut.-Governor and Council nominated by the Dominion Government (Act 1880); then by a Lieut. Governor and Council, part elected and part nominated; then in 1888 by a Lieut.-Governor and an Advisory Council of four persons selected from an elected Assembly of 22 members; then by a Lieutenant-Governor, an Executive and a Legislative Assembly, with powers the same as those conferred on the legislatures of the other provinces, excepting as to the borrowing of money on the sole credit of the province. Finally, by a Lieut. Governor and an Executive Council selected by the Governor from the Assembly and re-elected on accepting office, by the people, the latter arrangement having come into force on 1st October, 1897.

The system of government established in Canada under the Union Act of 1867 is a Federal Union (the first of the kind in the British Empire) having (a) a general or central government controlling matters essential to the general development, the permanency and the unity of the whole Dominion, and (b) a number of local or provincial governments having the control and management of certain matters naturally and conveniently falling within their defined jurisdiction, while each government is administered in accordance with the British system of parliamentary institutions.

The chief executive government and authority is vested in the Queen, to whom is also vested the chief command of the militia and of all naval and military forces in Canada. Her Majesty is represented by a Governor General, appointed by the Queen in Council but paid by Canada.

The Parliament of Canada consists of 1st, the Queen; 2nd, an Upper House, called the Senate; and 3rd, a Lower House, called the House of Commons.

The Governor General governs under the advice of a Council of Ministers, known as the Queen's Privy Council for Canada, which is responsible to the Parliament.

The Senate, as at present constituted, consists of 81 members, 24 each from Ontario and Quebec, ten each from Nova Scotia and New Brunswick, four each from Prince Edward Island and Manitoba, three from British Columbia and two from the North-west Territories.

The House of Commons, which is elected by the people for a term of five years, consists of 213 members.

This number is fixed under the provisions of the Act of Confederation and the representation is arranged after each decennial census, by Act of Parliament, the basis being that the province of Quebec is always to have 65 representatives, and each of the other provinces such a number as will give the same proportion of representatives to its population as the number 65 bears to the population of Quebec as ascertained by the census. British Columbia, by the terms of the agreement made between the Dominion and province prior to the union, is never to have less than six members.

The number of representatives and the population to each member are as under :—

Province.	Number of Representatives.	Population to each Member.
Ontario....	92	22,982
Quebec.....	65	22,900
Nova Scotia.....	20	22,520

(6) Indians outside of Ontario, Quebec, Nova Scotia, New Brunswick and Prince Edward Island, and those in these provinces not in possession and occupancy of a separate tract in the reserve. (7) Mongolians or Chinese.*

Voting in elections is by ballot. The North-west Territories, previously to 1894, had open voting: chap. 15 of Acts of 1894 changed that mode to the one adopted in all the other provinces.

No property qualification is demanded from a member of the Commons; nor is he limited to a residence in the district for which he is elected.

* By Act of Canadian Parliament, Chap. 14, Acts of 1898, the provincial franchisees were added, as also the provincial polling divisions and the provincial voters' lists.

Electors having votes in different electoral districts can exercise their privilege in one or all.

General elections are simultaneous throughout the Dominion of Canada.

The number of voters on the voters' lists is as under:—

CANADA.

Year	Voters on Electoral Lists.	Increase		Proportion to Population.
		Number.	Per cent.	
1887	993,914	180,012	22.41	21.49

* No Voters' lists in 1882; figures approximate.

The constitutions of the four provinces, viz., Ontario, Quebec, Nova Scotia and New Brunswick, which composed the Dominion in 1867 (when the Act of Confederation was passed), are the same in principle and details, except that Ontario and New Brunswick have only one chamber, a Legislative Assembly; the other two being bicameral. Of the provinces since created or admitted each has only one house, an elective Assembly.

In details the Dominion Parliament is closely copied.

The members of the Legislatures as well as Members of Parliament, are paid an indemnity for attendance.

Municipal institutions are general. In the complete form as adopted by Ontario, Manitoba, British Columbia and other provinces, the whole municipal organization comprises (a.) The townships, being rural districts of an area of eight or ten square miles; (b.) Villages with a population over 750; (c.) Towns with a population of over 2,000. Such of

these as are comprised within a large district, called a county constitute. (d.) The county municipality; (e.) Cities are established from the growth of towns when their population exceeds 15,000.

The townships and villages are administered by a reeve and councillors; the towns by a mayor and councillors. The governing body of the county municipality is composed of the Reeves and deputy Reeves of the townships, villages and towns within the county, the presiding officer being styled warden.

By the Act of Confederation it is provided that the Governor General in Council shall appoint the judges of the Superior, District and County Courts, the salaries, allowances and pensions for whom are fixed by the Dominion Parliament.

The highest court in Canada is known as the Supreme Court of Canada. It has an appellate, civil and criminal jurisdiction in and throughout Canada. It has also appellate jurisdiction in controverted elections cases and may examine and report upon any private bill or petition for the same. It has jurisdiction in cases of controversies between the Dominion and the provinces, and between the provinces themselves on condition that the Legislatures pass Acts agreeing to such jurisdiction. Under Act of the Canadian Parliament passed in 1891, the Governor in Council may refer to the Supreme Court for an opinion upon any matter which he deems advisable in the public interest.

The court is presided over by a chief justice and five puisne judges. From its decision an appeal lies to the Judicial Committee of the Privy Council of England, except in criminal cases; in these the judgment of the Supreme Court is final.

The Exchequer Court, presided over by a single judge, possesses exclusive original jurisdiction in all cases in which demand is made or relief sought in any suit or action of the Court of Exchequer, on its revenue side, against the Crown or any of its officers. This court also possesses original jurisdiction in all cases in which it is sought to enforce any law relating to the revenue. It is also a Colonial Court of Admiralty.

The Superior courts of the several provinces are constituted as follows:—Ontario—The Supreme Court of Judicature, consisting of two permanent divisions called respectively the High Court of Justice for Ontario and the Court of Appeal for Ontario. The first division is again divided into three parts, having concurrent jurisdiction, Queen's Bench, Common Pleas and Chancery, the first two of which are presided over by a Chief Justice and two judges for each, and the third of which is composed of a chancellor and three judges. Quebec—The Chief Justice of the Queen's Bench and five puisne judges, and the Chief Justice of the Superior Court and twenty-nine puisne judges, whose residences are fixed in various parts of the province. Nova Scotia and New Brunswick—The Chief Justice of the Supreme Court, the Judge in Equity and five and four puisne judges respectively. Manitoba—The Chief Justice and three puisne judges. British Columbia—The Chief Justice and four puisne judges. Prince Edward Is-

land—The Chief Justice and two assistant judges. In the North-west Territories there are five puisne judges of the Supreme Court.

There are also county courts with variously limited jurisdiction in all the provinces, but not in the North-west Territories. Police magistrates and justices appointed by the provincial governments have their place in the administration of justice.

The Mounted Police Force in the North-west Territories constitute a tribunal of justice, the Commissioner and the Assistant Commissioner having all the powers of a stipendary magistrate, and the superintendents being ex-officio justices of the peace.

Part of the unorganized territories came into possession of Canada by virtue of the Queen's Order of 23rd June, 1870 (see Statutes of Canada, 1872, p. lxiii) and part by virtue of the Queen's Order of the 21st July, 1880 (see Statutes of Canada, 1881, pp. ix, x).

As to the portion of the unorganized territory which was by the Queen's Order of June 23rd, 1870, transferred to the Dominion, it may be taken that the law of England as it stood on the 2nd May (o.s.), 1670—the date of the Hudson's Bay Company's charter—applies, subject only to such ordinances as were enacted in reference thereto by the Hudson's Bay Company.

With respect to the other unorganized territories, the title to which was acquired under the Queen's Order of 21st July, 1880, the Order itself states that such territory shall become and be subject to the laws for the time being in force in the Dominion in so far as they be applicable to such territories.

The following is a list of the Governors General and Governors of the several provinces before confederation, together with the years of office :—

(c) Although Amherst's name is usually placed first on the list of English Governors of Canada, it is well known that at the capitulation of Montreal he divided the Provinces into three Governments or Districts, for each of which he appointed a Governor, and that he himself very shortly afterwards left the country and did not return. The Lieutenant-Governors of these three Districts during what is commonly called the period of Military Rule, from 8th September, 1760, to 10th August, 1764, were—

District of Quebec—Gen. James Murray, September, 1760, to August, 1764.

District of Three Rivers—Col. Ralph Burton, September, 1760, to May, 1762; Col. Fred. Haldimand, May, 1762, to March, 1763; Col. Ralph Burton, March, 1763, to October, 1763; Col. Fred. Haldimand, October, 1763, to August, 1764.

District of Montreal—Gen. Thom. Gage, September, 1763, to October, 1763.

of Sir Guy Carleton was Lieutenant Governor and Acting Governor General from 24th September, 1766, to 25th October, 1768.

From 1786 to 1807 the Governor at Quebec held also a commission as Governor of the Maritime Provinces, and from 1791 to 1841 of Upper Canada, the Government of these provinces being administered by a Lieut. Governor, except during the presence in any province of the Governor General.

Every race and every religion are represented in the British Empire. E. G. Ravenstein says: "Of Europeans there are about 50,000,000. There are 54,865,000 Christians; 83,283,000 Mohammedans; 232,646,000 Buddhists, Hindus and Confucians, and 31,570,000 heathen in the Empire." Ravenstein makes the population of the Empire over 402,000,000.

The figures in this table, with the exception of Canada, have been taken from the Statesman's Year-Book, 1897.

TREATIES.

In the Year-Book of Canada for 1895 a digest was given of the Treaties relating to Canada made by our Sovereigns with the Rulers of other countries.

In February 8th, 1896, a Convention was signed by Great Britain and the United States, providing for reference to two commissioners to determine the liability of the United States in respect to claims on account of injuries sustained by persons in whose behalf Great Britain is entitled to claim compensation under the provisions of the treaty between Great Britain and the United States, signed February 29th, 1892, concerning the jurisdictional right of the United States in the waters of Behring Sea and the preservation of the fur seal therein.

Mr. Justice Putnam, on behalf of the United States, and Mr. Justice King on behalf of Canada, were appointed commissioners in July, 1896. The King of Sweden consented to act as umpire. The Dominion Parliament passed the necessary Act on 23rd April, 1896. The commissioners, after holding sessions in several cities, met in Boston in December, 1897, and gave their award against the United States in the sum of \$463,454. This amount was paid on June 16th, 1898.

On July 30th the Government of the United Kingdom denounced the commercial treaties with Belgium and Germany which have been in force since 1862 and 1865, respectively. Under the treaties, a year's notice is required. These treaties, therefore, cease to be operative on the 30th July, 1898.

British Treaties of Commerce affecting Canada are :

(Arranged alphabetically.)

1825 Argentine Confederation.—Reciprocal most-favoured nation stipulations. Applicable to British dominions. No term fixed.

1874 Austria-Hungary.—Reciprocal most-favoured stipulations. Applicable to British colonies and foreign possessions. Terminable year after notice.

1862. Belgium.—Reciprocal and most-favoured nation stipulations. Not applicable to British colonies after 30th July, 1898.

Article XV. provides that articles, the produce and manufacture of Belgium, shall not be subject in the British colonies to other or higher duties than those which are or may be imposed upon similar articles of British origin. Terminable one year after notice, but by Article XXV. the high contracting powers reserve to themselves the right to introduce into the treaty by common consent any modifications which may not be at variance with its spirit or principles, and the utility of which may be shown by experience.

1840. Bolivia.—Reciprocal most-favoured nation stipulations. Applicable to British dominions. No term fixed.

1897. Bulgaria.—Reciprocal most-favoured nation stipulations. Applicable to Canada on her accepting. To remain in force till end of December, 1899.

1854. Chili.—Reciprocal most-favoured nation stipulations. Applicable to British dominions. Terminable one year after notice.

1866. Columbia.—Reciprocal most-favoured nation stipulations. Applicable to British dominions. Terminable one year after notice.

1883. Corea.—Article X. stipulates that the government, public officers and subjects shall participate in all privileges, immunities and advantages, especially in relation to import or export duties on goods and manufactures, which shall then have been granted or may hereafter be granted by His Majesty the King of Corea to the government, public officers or subjects of any other power. Applicable to British colonies unless excepted by notice. May be modified one year after notice.

1849. Costa Rica.—For foreign affairs reciprocal most favoured nation stipulations. Applicable to British territories and dominions. Terminable one year after notice. The Secretary of State received from the Minister for Foreign Affairs of the Costa Rican Republic a note denouncing Articles V., VI. and VII. of this Treaty and these will accordingly cease and determine on 26th November, 1897. They relate to the most-favoured nation stipulations.

1860-61. Denmark.—Confirmed 1814. Reciprocal most-favoured nation stipulations. Applicable to British dominions. No term fixed.

1860. Dominican Republic.—Reciprocal most-favoured nation stipulations. Applicable to British dominions. Terminable on notice.

1893. Treaty with France, Paris.—Commercial agreement between the United Kingdom (on behalf of Canada) and France.

Article I. provides that still wines less than 25 per cent alcohol shall be exempt from the surtax or ad valorem duty of 30 per cent. That the duty on common and castile soaps shall be reduced one-half, and the duty on nuts, almonds, prunes and plums by one third.

Article II. provides that tariff advantages granted by Canada to a third power shall be enjoyed by France, Algeria and French colonies.

Article III. provides that certain goods of Canadian origin shall be subject only to the minimum duty in France, Algeria and French colonies, viz. : Canned milk, condensed milk, fresh water fish, fresh lobsters and crawfish preserved in their natural forms, apples and pears, fresh or dried, preserved fruit, building timber, wood pavement, staves, wood pulp, shaving extract, common paper, prepared skins, boots and shoes, common furniture, except chairs, flooring of soft wood and wooden ships.

Any tariff advantage to other powers is to be extended to Canada.

Article VII. runs : "The stipulations of the preceding articles, I. to VI shall also be applied to the colonies and foreign possessions of Her Britannic Majesty. In those colonies and possessions the produce of the states of the Zollverein shall not be subject to any higher or other import duties than the produce of the United Kingdom of Great Britain and Ireland, or of any other country of the like kind, nor shall the exportation from those colonies or possessions to the Zollverein be subject to any higher or other duties than the exportation to the United Kingdom of Great Britain and Ireland." Terminable one year after notice.

Hawaii.—See Sandwich Islands.

1848. Liberia.—Reciprocal most-favoured nation stipulations. Applicable to British dominions. No term fixed.

1865 and 1883. Madagascar.—Special stipulations. Applicable to British dominions. No term fixed.

1856. Morocco.—Most-favoured nation clause in favour of British subjects. Applicable to British dominions. No term fixed.

1891. Muscat.—Most-favoured nation clause in favour of British subjects, and duties not to exceed 5 per cent. Applicable to British colonies and possessions. Canada was excepted but acceded by Order in Council, February 6th, 1893. May be revised and amended after twelve years, on one year's notice.

1841 and 1857. Persia.—Reciprocal most-favoured nation stipulations. Applicable to British dominions. No term fixed.

Portugal

Imperial Blue Book Com. No. 17, 1893, says that the treaties of 1842 and 1882 have expired, but British trade continues to enjoy most favoured nation treatment in Portugal.)

1859. Russia.—Reciprocal most-favoured nation stipulations, except Sweden and Norway. Applicable to British dominions. Terminable one year after notice.

1851. Sandwich Islands.—Reciprocal most-favoured nation stipulations, with the following proviso :—"Gratuitously if the concession in favour of the other state shall have been gratuitous, or in return for a compensation as nearly as possible of proportionate value and effect, to be adjusted by mutual agreement if the concession shall have been conditional" (Article III.) Applicable to British dominions and territories. Terminable one year after notice.

1885. Siam.—Most-favoured nation clause in favour of any part of the British dominions for spirits, beer, wines, &c. Applicable to British dominions for spirits, beer, wines and spirituous liquors. Terminable after six months' notice.

1884. South Africa Republic.—Reciprocal most-favoured nation stipulations with provision as follows: "Those provisions do not preclude the consideration of special arrangements as to import duties and commercial relations between the South African Republic and any of Her Majesty's colonies or possessions." Applicable to British dominions, with proviso as above. No term fixed.

1892. Spain.—By Royal Order of June 29, 1892, Spain ordained that so long as the United Kingdom granted the most-favoured nation treatment, British goods imported into Spain should enjoy the benefit of being subject to the duties of the second column of the tariff. By Royal Order of June 30, 1892, this provision was extended to Cuba and Porto Rico.

1826. Sweden and Norway.—Reciprocal most-favoured nation stipulations. Applicable to British colonies. Terminable one year after notice.

1855. Swiss Confederation.—Reciprocal most-favoured nation stipulations. Applicable to British colonies. Terminable one year after notice.

1875. Tunis.—Reciprocal most-favoured nation stipulations. Applicable to British colonies. Revised in September, 1897, to continue to end of 1912. Six months' notice to be then given.

1885. Uruguay.—Reciprocal most-favoured nation stipulations. Applicable to British colonies and possessions, with exceptions. Canada was excepted but acceded. Terminable one year after notice.

1825 and 1834. Venezuela.—Reciprocal most-favoured nation stipulations. Applicable to British dominions. No term fixed.

EXTRADITION TREATIES

Extradition proceedings in Canada are governed by "The Extradition Act," chapter 142, Revised Statutes of Canada, 1886.

This Act applies to any foreign state with which there is an extradition arrangement, but so as not to contravene such arrangement.

If the Imperial Extradition Act of 1870 is made subject to any limitation by such arrangement, this Act shall be subject to the same limitation.

Judges of the Superior and County Courts and commissioners appointed for the purpose have power to act.

A warrant being issued for the fugitive, the judge is to receive evidence as to the charges and as to whether the offence is not an extraditable crime or of a political character, for which he cannot be surrendered. After committal, the fugitive may be surrendered after fifteen days.

In case of the extradition of a Canadian fugitive by a foreign state, he cannot be prosecuted or punished for any prior offence not of a nature included in the extradition arrangement with the state in question.

The extradition crimes contained in a schedule to the Act are : Murder, or attempts, and manslaughter ; counterfeiting and forging, larceny, embezzlement, obtaining value under false pretenses, crimes against bankruptcy or insolvency law, criminal frauds by agents, trustees, &c. ; rape, abduction, child-stealing, kidnapping, false imprisonment, burglary, arson, robbery, threats to extort, perjury and subordination ; piracy, and various other crimes at sea. Criminal accessories are included.

The Imperial authorities, by Order in Council, exempt Canada from the operation of the Imperial Extradition Acts of 1870 and 1873, so long as the Canadian Extradition Act remains in force.

^{*}The Imperial Blue Book Commercial No. 17, 1893. Reply not yet received from Canada.

^{*}Particulars of the treaties with Muscat and Uruguay, to which Canada has acceded, will be found in the list of Treaties of Commerce now applicable to Canada.

[†]A notification of the treaty with Zanzibar was, apparently, received from the Imperial authorities.

The treaties made by Canada with the Indian tribes are contained in “Treaties of Canada with the Indians of the North-west, 1880,” by Hon. A. Morris, and in “Indian Treaties and surrenders,” Department of Indian Affairs, Ottawa. A digest of these was given in the Year Book of 1895.

*Ratifications exchanged, February 19, 1886.

†Tonga subjects escaping to British Territories only.

There is a very large area of land throughout Canada available for settlement, either for agricultural or for mining purposes, the disposition of which is in the hands of the Dominion Government and of the several Provincial Governments, according to situation. These lands are known generally as "Crown Lands."

The Crown Lands of the Dominion, commonly called Dominion Lands, are situated in Manitoba, the Territories, and what is known as the Railway Belt in British Columbia, and comprise some of the finest agricultural lands on the continent. In order to provide every facility for information to immigrants and settlers, a number of land agencies are situated at the most convenient points, where the fullest details can be obtained.

Under an Order in Council passed 25th November, 1885, a large tract of land, inclosing several hot mineral springs at Banff, Alberta, was set apart as a national park to be known as "Rocky Mountains Park." Under an Order in Council passed 10th October, 1886, certain other reservations in the Rocky Mountains were also made for park purposes. These Orders in Council were passed under authority of provisions contained in the "Dominion Lands Act" respecting the reservation of public lands for park purposes, but the reservation of the Rocky Mountains Park was confirmed and particularly defined by the "Rocky Mountains Park Act, 1887," chap. 32 of 50-51 Vic. Since its reservation many improvements have been completed in the park; roads have been made, bridges built, burnt timber and brushwood removed, buildings erected at the Hot Springs, at the "Cave and Basin," for the convenience of bathers and other visitors; and lately a museum which already contains an interesting collection of 1,339 articles, found within the park or elsewhere in the Rocky Mountains, has been added to the attractions of this park. The majority of visitors call at the Cave and Basin, and in 1897 of those who registered there, 1,091 were Canadians, 1,008 were from the United States, 336 from England, Scotland and Ireland, and the remainder from France, Germany, India, Australia, China, Japan, and other countries.

The following are the comparative figures for the last eight years of transactions in Dominion Lands. The pre-emption system was terminated on 1st January, 1890.

At the rate of five to a homestead of 160 acres, these lands would sustain an agricultural population of 2,474,390 souls.

The number of homestead entries made during the twelve months ending 31st October, 1897, was 2,406, representing 7,404 souls. The entries were made by 703 Canadians, 218 from the United States (54 of whom were returned Canadians), 416 from the United Kingdom, 55 French, 100 Germans, 358 Austro-Hungarians, 69 Russians (other than Mennonites), 23 Swedes and Norwegians, 9 Icelanders and 455 from other countries.

In the session of 1894 an Act was passed entitled the “North-west Irrigation Act.” This Act has been so framed as to provide for careful supervision by the Government of the first distribution, and the subse-

ent supervision of the available water supply in the arid region. Some of the provisions under which the control is to be exercised are entirely new, and differ from the methods heretofore adopted on this continent, but those best qualified to judge speak of the system adopted as calculated to establish irrigation enterprises upon a sound basis.

At the close of the season of 1897 there were 174 irrigation ditches and canals in operation in southern Alberta and western Assiniboia. These have a carrying capacity sufficient to irrigate 76,000 acres. The results which have followed have been most encouraging. There is now no reason to doubt that through irrigation a large portion of Assiniboia and Alberta will be rendered fruitful every year, and the element of uncertainty caused by variations in the rainfall altogether eliminated from the calculations of those engaged in extensive agricultural operations.

The Provincial Crown Lands are situated within the limits of the several provinces, and are controlled by the respective governments, from whom particulars of transactions concerning them can always be obtained. Summaries of the regulations for the disposition of Dominion Lands, Provincial Lands and the lands belonging to the principal railway companies who have received land subsidies in Manitoba and the North-west Territories are given below.

Under the Dominion Lands Regulations, all surveyed even-numbered sections (excepting 8 and 26) in Manitoba and the North-west Territories, which have not been homesteaded, reserved to provide wood lots for settlers, or otherwise disposed of or reserved, are to be held exclusively for homesteads.

1. Homestead Entry for one quarter section (160 acres) of surveyed agricultural land, open to such entry, may be obtained by any person who is the sole head of a family, or by any male who has attained the age of eighteen years, on application to the local agent of Dominion Lands and on payment of an office fee of \$10.

The homesteader must perfect his entry by beginning actual residence on his homestead, and cultivation of a reasonable portion thereof within six months from the date of entry, unless entry shall have been made on or after the first day of September, in which case residence need not commence until the first day of June following, and continue to live upon and cultivate the land for at least six months out of every twelve months for three years from date of perfecting the homestead entry.

In the event of a homesteader desiring to secure his patent within a shorter period than the three years provided by law, he will be permitted to purchase his homestead at the Government price at the time of entry, on furnishing proof that he has resided on the land for at least twelve months from the date of his perfecting his homestead entry, and that he has brought at least thirty acres thereof under cultivation.

2. In connection with his homestead entry, the settler may also purchase subject to the approval of the Minister of the Interior, the quarter section of the same section, if available, adjoining his homestead, at the

Government price, which is at the present time \$3 per acre: one-fourth of the purchase money to be in cash, and the balance in three equal annual instalments bearing interest at 6 per cent per annum.

3. The Government make no advances of money to settlers, but for the better encouragement of bona fide settlement, in cases where any person or company is desirous of assisting intending settlers, when the sanction of the Minister of the Interior to the advance has been obtained, the settler has power to create a charge upon his homestead for a sum not exceeding six hundred dollars, and interest not exceeding 6 per cent per annum, provided the particulars of how such an advance has been expended for his benefit be first furnished to and acknowledged by the settler and verified by the local agent, homestead inspector, or other agent, appointed by the Minister of the Interior: or if the charge be made previous to the advance, then such charge shall only operate to the extent certified to by the local agent, homestead inspector or other agent as having been actually advanced to or expended for the benefit of the settler. The advance may be devoted to paying the cost of the passage of the settler, paying for the homestead entry, providing for the subsistence of the settler and his family, erecting and insuring buildings on the homestead, and breaking land and providing horses, cattle, furniture, farm implements, seed grain, &c.

For the further protection of the settler it is provided that the time for payment of the first instalment of interest on any such advance shall not be earlier than the 1st November in any year, and shall not be within less than two years from the establishment of the settler upon the homestead, and also that the settler shall not be bound to pay the capital of such advance within a less period than four years from the date of his establishment on the homestead.

4. The odd-numbered sections are at present reserved for the purpose of being granted as land subsidies in aid of the construction of colonization railways in Manitoba and the North-west Territories, except in special cases otherwise ordered by the Minister of the Interior.

5. Payments for land may be made in cash or by such scrip as has been issued by the Department of the Interior for that purpose.

6. A homestead settler, whose land is destitute of timber, may, upon payment of an office fee of 25 cents, procure from the Crown Timber Agent a permit to cut the following quantities of timber free of dues: 30 cords of dry wood, 3,000 lineal feet of building timber, 2,000 poplar fence rails and 400 roof poles. Any settler may obtain a permit, on payment of the same fee, to cut burnt or fallen timber of a diameter up to 7 inches, inclusive, for fuel or fencing, and of any diameter for building purposes, for his own use.

In cases where there is timbered land in the vicinity available for the purpose, the homestead settler, whose land is without timber, may purchase a wood lot, not exceeding in area twenty acres.

7. Licenses or permits to cut timber on surveyed or unsurveyed land are granted, after competition, to the highest tenderer.

8. The price per acre for Coal Lands is : For land containing lignite or bituminous coal, \$10, and for anthracite coal, \$20. The land may be sold by public competition or to the applicant.

When two or more parties apply to purchase the same land, tenders may be invited between the applicants, or it may be sold by public competition, by tender or auction, as may be deemed expedient, at the up-set price of coal lands.

9. Leases of Grazing Lands in Manitoba and the North-west Territories may be granted at an annual rental of two cents an acre. Leases shall be for a period of not exceeding twenty-one years, and no single lease shall cover a greater area than 100,000 acres.

The lessee is obliged, within each of the three years from the date of granting the lease, to place upon his leasehold not less than one-third of the whole amount of stock which is required to place upon the tract leased, namely, one head of cattle for every twenty acres of land covered by the lease, and shall, during the rest of the term, maintain cattle thereon in that proportion.

After placing the prescribed number of cattle upon his leasehold, the lessee may purchase land within the tract leased for a home, a farm or corral.

Any portion of the land forming a grazing tract authorized to be leased subsequent to the 12th January, 1886, unless otherwise provided in any lease thereof, is open for homestead or purchase from Government at the price obtaining in the class in which the lands are situate ; and in the event of such settlement or sale, the lease (if any) to be void in respect of such lands so entered or purchased.

10. On the 3rd April, 1880, judgment was given by the Judicial Committee of the Privy Council, declaring that the right to administer the minerals within the railway belt in British Columbia was vested in the government of that province. In order to dispose of the anomalous condition of affairs that consequently arose, viz., that the jurisdiction over the lands was vested in the Dominion Government, and the right to administer the minerals in that of the province, the following arrangement, ratified by Order in Council of 28th February, 1890, was agreed upon between the two governments :—

No disposition of lands containing minerals (except coal lands) shall be made by the Dominion Government, other than by patent in fee simple, thereby bringing the minerals at once under the administration of the provincial mining laws.

All lands containing minerals (except coal lands and Indian reserves) offered for sale by the Dominion Government, shall be open for purchase by the Provincial Government at the price of \$5 per acre.

Any lands sought to be acquired by the Provincial Government under the last clause shall be set apart from alienation by the Dominion, upon the Provincial Government making a written application for the same. Such lands to be surveyed (if not already done) by a Dominion Land surveyor, at the expense of the Provincial Government.

Nothing in the agreement shall apply to coal lands.

The agreement may be terminated at any time by either government. All minerals, including gold and silver, within Indian reserves, shall be administered by the Department of Indian Affairs.

With respect to the lands of the province of Ontario, any head of a family, whether male or sole female, having children under eighteen years of age, can obtain a grant of 200 acres ; and a single man over eighteen years of age, or a married man having no children under eighteen residing with him, can obtain a grant of 100 acres. These lands are mostly covered with forest, and are situate in the northern and north-western parts of the province.

Such a person may also purchase an additional 100 acres at 50 cents per acre cash. The settlement duties are : To have 15 acres on each grant cleared and under crop at the end of the first five years, of which at least 2 acres are to be cleared annually ; to build a habitable house, at least 16 feet by 20 feet in size ; and to reside on the land at least six months in each year.

In the Rainy River district to the west of Lake Superior, consisting of well-watered, uncleared land, free grants are made of 160 acres to a head of a family having children under eighteen years of age residing with him (or her), and 120 acres to a single man over eighteen, or to a married man not having children under eighteen residing with him ; each person obtaining a free grant to have the privilege of purchasing 80 acres additional, at the rate of \$1 per acre, payable in four annual instalments. The settlement duties are the same as set out above, excepting that only three years' residence is required. The soil of this district is a deep loam, and for an area of nearly a million acres is very fertile.

In the district of Nipissing east of the Spanish River, several townships have been surveyed and opened for sale on the same terms and subject to the same conditions of settlement as those in the Temiscamingue settlement above mentioned.

North of Lake Huron along the lower waters of the Spanish, and westerly to the regions watered by the Thessalon and Mississagua Rivers, lands in the market are sold at twenty cents an acre cash, subject to settlement duties, and actual residence for three years from date of purchase.

The Wabigoon country selected by the Minister of Agriculture for the pioneer farm, is a new section opened for settlement in the Rainy River district about 217 miles west of Port Arthur, and 80 miles east of Rat Portage.

It is intended to bring it to the attention of the intending settler as a dairy section rather than a grain-growing country.

Four townships have been surveyed, and two of them, Van Home and Wainwright, have been placed on the market at 50 cents an acre, one-fourth cash and balance with interest at 6 per cent, subject to settlement conditions.

The Crown Land Agent's office is at Dryden.

About 7,000,000 acres of land have been surveyed by the Government of Quebec for sale.

Lands purchased from the government are to be paid for in the following manner :—One-fifth of the purchase money is required to be paid the day of the sale, and the remainder in four equal yearly instalments, bearing interest at 6 per cent. But the price at which the lands are sold is so low—from 20 cents to 60 cents per acre (10d. to 2s. 5½d. stg.) that these conditions are not very burdensome.

The purchaser is required to take possession of the land sold within six months of the date of the sale, and to occupy it within two years. He must clear and have under crop, in the course of four years, ten acres for every hundred held by him, and erect a habitable house of the dimensions of at least 16 feet by 20 feet. The letters patent are issued free of charge.

The parts of the province of Quebec now inviting colonization are the Lake St. John district, the valleys of Saguenay, St. Maurice and the Ottawa rivers, the Eastern Townships, the Lower St. Lawrence, Lake Temiscamingue and Gaspé.

The Temiscamingue settlement at the head of Lake Temiscamingue on the Upper Ottawa, consists of a level tract of many thousands of acres of rich calcareous clay.

Twenty-five townships have been surveyed, five of which have been opened for sale subject to settlement and pine tree regulations, at fifty cents an acre, half cash, and balance in two equal annual instalments with interest.

The settlement duties are actual residence on the land purchased for four years from the date of purchase, clearing and having under cultivation and crop at least ten acres for every hundred acres, and building a habitable house sixteen feet by twenty feet.

There are now in Nova Scotia about 1,500,000 acres of ungranted lands, a considerable quantity of which is barren and almost totally unfit for cultivation. Nearly all the best land has been sold or granted. The price of Crown Lands is \$40 (£8 stg.) per 100 acres.

The grants of land to the early settlers in this province contained no systematic reservation of minerals. Gold, silver and precious stones are reserved without any express mention; in the earlier grants iron was not reserved, but for many years coal, iron, copper, lead, &c., were retained for a source of revenue to the Crown.

The Act of Settlement releases to the owner of the soil all gypsum, freestones, fireclay, barytes, maganese, antimony, &c., and any of the reserved minerals whenever the reservation is not specified in the original grants.

It is estimated that there are about 7,000,000 acres of ungranted land in New Brunswick.

Crown Lands may be acquired for actual settlement as follows :—

1. Grants of 100 acres, by settlers over eighteen years of age, on conditions of improving the land to the extent of \$20 (£4) within three months ; building a house 16 by 20 feet, and cultivating 2 acres within one year ; and continuous residence and cultivation of 10 acres within three years.

2. One hundred acres are given to any settler over eighteen years of age who pays \$20 (£4) in cash, or does work on the public roads, &c., equal to \$10 (£2) per annum for three years. Within two years a house 16 by 20 feet must be built and 2 acres of land cleared. Continuous residence for three years from date of entry, and the cultivation of 10 acres in that time are required.

3. Single applications may be made for not more than 200 acres of Crown Lands without conditions of settlement. These are put up at public auction at an upset price of \$1 (4s. 2d.) per acre. Purchase money to be paid with application. Cost of survey to be paid by purchaser. The above sections apply only to lands fit for agricultural purposes. Lands well timbered are not sold outright.

Any person being the head of a family, a widow or a single man over eighteen years of age, and a British subject, or an alien purposing to become a British subject, can pre-empt 160 acres of land belonging to British Columbia west of Cascade Mountains, or 320 acres east of these mountains, at \$1 per acre. Two months' leave of absence under the Land Act, and an additional four months for sufficient cause, when applied for to the Chief Commissioner, can be had in each year till the Crown deed is obtained. A certificate of improvement showing that the claim has been improved to the extent of \$2.50 per acre is necessary before a Crown deed can be issued. Timber and hay lands may be leased from the Government. Timber lands pay a yearly rental of 15 cents per acre, and a royalty of 50 cents per 1,000 feet on all logs cut. Lease of land for other purposes may also be granted by the Lieutenant-Governor in Council.

There are about 45,000 acres of vacant Government land available in Prince Edward Island, consisting of forest lands of medium quality, and averaging in price about \$1 an acre. Intending settlers are allowed ten years to pay for their holdings, the purchase money bearing interest at 5 per cent, and payable in ten annual instalments.

The Canadian Pacific Railway lands consist of the odd-numbered sections along the main line and branches in Manitoba, Assiniboia, Saskatchewan and Alberta. Lands in the province of Manitoba average in price from \$3 to \$6 an acre ; in the district of Assiniboia, east of the 3rd meridian, \$3 to \$4 an acre, and west of the 3rd meridian, \$3 an acre.

If paid for in full at time of purchase, a deed of conveyance of the land will be given ; but the purchaser may pay down a little more than one-tenth of the purchase money and interest, which for 160 acres at \$3 per acre on nine years' time, interest at 6 per cent, would amount to \$11.85. The first instalment at that price would be \$71.85, the balance payable in nine equal annual instalments of \$60 each, the first of which would fall due in one year from the date of purchase, except in the case of actual settlers requiring the lands for their own use. In such cases the second instalment would fall due in two years and the remaining payments annually thereafter, thus giving the settler an opportunity to pay for the land out of his crops.

Liberal rates for settlers and their effects will be granted by the company over their railway.

The land grant of the Manitoba South-western Colonization Railway Company contains over 1,000,000 acres of land, well adapted for grain growing and mixed farming, in a belt of 21 miles wide, immediately north of the international boundary, and from range 13 westward. The terms of purchase are the same as those of the Canadian Pacific Railway Company, but in addition to the price the purchaser pays ten cents per acre to defray the cost of surveying the land.

The Alberta Railway and Coal Company owns, in the district of Alberta in the North-west Territories, 300,000 acres of farming and grazing prairie lands. These are situated principally between the international boundary and Lethbridge, the site of the company's collieries.

The company have for sale blocks of land from 10,000 to 30,000 acres in extent, for grazing or colonization purposes. Full information and plans may be obtained from the company's offices at Lethbridge.

The Qu'Appelle, Long Lake and Saskatchewan Railway Company's land grant consists of about 1,500,000 acres of land in the Saskatchewan district, and a report on any section can be seen at the company's land offices in Winnipeg.

The Qu'Appelle, Long Lake and Saskatchewan Railway runs through the district, connecting with the Canadian Pacific Railway at Regina.

At present the majority of the lands (within easy reach of the railway) are offered at \$3 per acre.

Terms, one-tenth purchase money and interest (straight 6 per cent) cash, balance in nine equal annual instalments, an additional year given to actual settlers to make second payment, the remaining payments annually thereafter.

The Calgary and Edmonton Railway Company's land grant consists of about 1,000,000 acres of agricultural and ranching lands in Alberta, and a report on any section can be seen at the company's land office in Winnipeg.

Plates, rolls, dies, etc., from which jubilee stamps were printed, destroyed in Ottawa in presence of the Postmaster General and others. About 32,000,000 stamps and 7,000,000 postal cards were printed from these plates.

September 14. The thirteenth annual session of the Trades and Labour Congress of Canada opened at Hamilton.

September 16. Sir Wilfrid Laurier banqueted by the citizens of Montreal on his return from England.

September 21. United States Attorney General made public his opinion that section 22 of the new United States tariff did not create a discrimination against goods imported into the United States via Canada.

September 27. Long distance telephone service established between Montreal, Quebec and Toronto on the Canadian side and Boston on the United States side of the line. Distance between Boston and Toronto 800 miles.

October 4. Prairie fires around Winnipeg. Several lives lost and much damage done to property.

October 4. Villages of Casselman and South Indian, near Ottawa, destroyed by fire. Nearly 700 houses burned down. Estimated loss, \$500,000.

October 7. Indian Famine Fund closed in London, Eng. Canada contributed about \$200,000.

October 15. Great Britain agreed to United States proposal to hold conference in the matter of the fur seal question under the Paris Award of 1893. The final session of this conference was held November 16, Sir Wilfrid Laurier and Sir James H. Davies being diplomatic representatives of Canada and Jas. M. Macdonnell expert. The Canadian Cabinet held a meeting November 19th to consider the United States propositions, which were (1) that both nations agree at once to a suspension of all killing of seals during the next season in the Pacific

Ocean and the Behring Sea, the *modus* to go into operation on 1st December; (2) that representatives of the Governments of the United States and Great Britain, including Canada, be designated to enter, with as little delay as possible, upon the consideration of all unsettled questions between Canada and the United States, with a view to their settlement by treaty—this to include the sealing question and any other matter which either government may choose to bring forward. The reply of the Canadian Government was that Canada could not assent to the first proposition, but was willing that a joint commission should be appointed by the Queen and the President for the purpose of settling matters in dispute between Canada and the United States.

October 15. Canadian sterling loan, 2½ per cent (first at that rate floated by any colony of the Empire), floated in London, Eng. The loan was for £2,000,000 sterling, 50 years. Price realized per £100 was £91 10s. 5d, and the net amount realized was £1,808,016.

October 16. Windsor, Nova Scotia, destroyed by fire. Estimated loss, \$1,500,000.

October 23. International Fur Seal Conference assembled in Washington. Countries represented were Russia, Japan and the United States. Great Britain declined to take part on account of Canada's opposition.

October 25. Nominations for the North-west Territories elections took place. First under the new arrangement requiring re-election of Executive Council on acceptance of office. Hon. Mr. Haultain and his colleagues returned by acclamation.

Hon. F. Peters, Premier of Prince Edward Island, resigned. Hon. A. B. Warburton succeeded.

October 27. General elections in Newfoundland result adversely to the Government.

October 28. Opening of 3rd session of 3rd Legislature of North-west Territories.

October 29. Hon. Jas. Mitchell, Premier of New Brunswick, resigned; Hon. Henry R. Emmerson succeeding.

November 2. Sir W. Laurier arrived in Washington in connection with the Behring Sea sealing subject and with the several questions upon which differences have arisen between the Governments of the United States and Canada.

November 10. Seal experts agree unanimously on propositions touching the fur seal herd of Behring Sea.

November 18. Hon. Sir Oliver Mowat, G. C. M. G., sworn in Lieutenant Governor of Ontario. Hon. David Mills sworn in Minister of Justice in the Laurier Ministry. Hon. T. R. McInnes, sworn in Lieut. Governor of British Columbia.

December 8. Privy Council of England decision given affirming the power of the Provincial Lieut. Governor to appoint Queen's Council, thus settling a dispute between the Dominion Government and the Provincial Governments carried on ever since confederation.

December 18. Correspondence between Sir Wilfrid Laurier and Hon. John W. Foster, in re pelagic sealing, published.

December 19. Great gale swept coast of Newfoundland, doing much damage to fishing fleet.

December 22. Dominion Government notified that the arbitrators, appointed to fix the amount of compensation to be paid by the United States to Canadian sealers illegally seized, had agreed upon the sum of \$463,454.

The following table is a comparison between the exports of agricultural produce of 1896 and 1897, calculated in the same manner as the tables in the chapter on Trade and Commerce. It will be seen that there was an increase in volume of \$12,246,000 and a decrease of \$5,504,000 due to a decline in prices, leaving an actual increase of \$6,742,248.

COAL

The coal areas of Canada are estimated at 2,97,280 square miles including areas known to be so situated in the future.

There are 15, the coal fields of Nova Scotia and New Brunswick and those of the Northern Territories : and those of the Rocky Mountains : and the coal of British Columbia. The coal areas of Nova Scotia cover about 600 square miles. They are divided into the Cape Breton, the Pictou and the Cumberland basins. New Brunswick contains, as far as known, no areas of sufficient magnitude to be worked successfully in connection with the Cumberland basins.

The workable thickness of the coal is very great, in Cape Breton a total of 25 to 60 feet, in Pictou at least 70 feet, and in Cumberland at least 30 feet. If the workable area is reduced one-quarter, say from 406,400 acres to 300,000 acres, and the average thickness of the workable area put at 25 feet, on the basis of 1,000 tons of coal an acre for every foot of coal, the amount of coal in the measures of Nova Scotia is 7,000,000,000 tons.

The following average analysis from a paper on Canadian coals read at the Montreal meeting of the British Association will give a fair idea of the coals from the three districts :—

	Cape Breton.	Pictou.	Cumberland.
Moisture.....	0.75	1.19	1.46
Volatile combustible.....	37.26	29.10	33.69
Fixed carbon.....	58.74	60.63	59.35
Ash.....	3.25	9.34	5.50

There are no coal measures from New Brunswick westward until the province of Manitoba is reached. The coal areas of Manitoba are roughly estimated at 15,000 square miles. They yield lignites only, often of a very good quality. Analysis gives the following result :—

Water.....	15.40
Volatile combustible.....	37.97
Fixed carbon.....	41.21
Ash.....	5.36

Analyses of the coal found in the area (50,000 square miles) extending along the base of the Rocky Mountains, from the international boundary to the vicinity of the Peace River—a distance of 500 miles—give the following result :—

	Belly River.	Bow River.	Peace River.
Water.....	6.52	12.37	2.10
Volatile combustible.....	31.03	32.33	21.54
Fixed carbon.....	56.54	46.39	71.63
Ash.....	5.91	8.91	4.73

The third coal area is that in the Rocky Mountains. Though small, as measured by miles, it contains much coal of the best quality. Several seams of anthracite of excellent quality have been found.

The fourth area is that of the Pacific coast. Dr. George M. Dawson gives the following estimates of its extent :—

	Square Miles.
Nanaimo coal basin (coals) approximately correct.....	200
Comox coal basin (coals) rough approximation.....	700
Queen Charlotte's Island very rough approximation.....	800
Tertiary lignite-bearing rocks in different parts of British Columbia south of the 54th parallel of latitude (very rough approximation).....	12,000

The character of the coal is evidenced by the following analysis :—

	Slow Coking.	Fast Coking.
Water...	1.47	1.47
Volatile combustible...	28.19	32.69
Fixed carbon...	64.05	59.53
Ash...	6.29	6.29

Anthracite in 3-feet and 6-feet seams, comparing favourably with that from Pennsylvania, has been found in Queen Charlotte's Island.

Samples analysed give the following results :—

	Sample 1.	Sample 2.
Water	1.60	7.89
Volatile combustible..	5.02	4.77
Fixed carbon...	83.09	85.76
Ash ..	8.76	6.69
Sulphur ..	1.53	0.89

The following gives the production of coal in Canada, by provinces, during the years 1874-97 :—

PRODUCTION OF COAL IN CANADA BY PROVINCES, 1874-97.

IRON

The iron ores of the Dominion have a wide range, both geographically and geologically. From Vancouver Island in the west to Cape Breton Island in the east they occur at varied intervals. Sir William Fairbairn, in "Iron, its History, Properties, and Processes of Manufacture," says: "In the Mineral and Geological Department of the Exhibition of 1862 were exhibited striking specimens of iron ore from the colonies, among which was the remarkable collection from Canada, consisting of oxide, red hematite and bog ores. The thickness of some of the beds from which the specimens were taken is worthy of notice. In Nova Scotia some of the richest ores yet discovered occur in boundless abundance. The iron manufactured from them is of the very best quality, and is equal to the finest Swedish metal." In the same province the iron ore, the coal and the flux lie in close contiguity to each other and are within a comparatively short distance from fine ship harbours, making that province one of the best regions in the world for the seat of iron and steel ship-building on a large scale.

Magnetic ores occur abundantly throughout several counties of Ontario. An important deposit in the Township of South Crosby has been worked for years. A very fine and valuable ore exists as a large deposit in North Crosby. The contiguous townships of Madoc, Marmora, Belmont and Seymour contain several beds of magnetic iron ore. In the region west of Lake Superior, the province of Ontario has a country rich in iron ore. In the province of Quebec there are large and valuable deposits of magnetic ore. In the county of Beauce a bed of granular iron ore, about two-thirds magnetic, with a vein of 45 feet wide, occurs in serpentine.

Hematite iron ores are found in all parts of Canada. One of the most valuable deposits in Quebec province is near Hull—opposite Ottawa—a specular ore, assaying from 64 to 68 per cent of metallic iron. In New Brunswick large deposits of hematite ore are found near Woodstock. Limonite and bog ores are widely distributed.

Chromic Iron. During the year 1895 large deposits of chromic iron were found in Coleraine, province of Quebec. The ore averaged over 50 per cent of metal, is easily mined and finds a ready market in the United States.

In 1897 there were six blast furnaces in operation in Canada—three in Nova Scotia, two in Quebec and one in Ontario.

The Dominion Parliament, in 1883, authorized the payment of a bounty of \$1 50 a ton upon all pig-iron manufactured in Canada. This bounty was continued until 1st July, 1889, when the rate was made \$1 a ton. A further change was made on 1st July, 1892, when the rate was raised to \$2 a ton until 1st July, 1897.

In the session of 1894 an Act was passed providing that the Governor in Council may authorize the payment of a bounty of \$2 per ton on all pig-iron made in Canada from Canadian ore, a bounty of \$2 per ton on all puddled bars made in Canada from Canadian pig-iron made from Canadian ore, and a bounty of \$2 per ton on all steel billets manufactured in Canada from Canadian pig-iron, and such other ingredients as are necessary and usual in the manufacture of steel billets. These bounties are applicable till 26th March, 1899, in the case of furnaces in operation on the 27th March, 1894, and in the case of furnaces commencing operations subsequently to that date, but before 27th March, 1899, for five years from the date of commencing.

This Act was repealed by Chap 6 of the Act of 1897, which authorized the Governor General to give (1) a bounty of \$3 per ton on steel ingots manufactured from ingredients of which not less than 50 per cent of their weight consists of pig-iron made in Canada, (2) a bounty of \$3 per ton on puddled iron bars made from Canadian made pig iron, (3) a bounty on pig-iron manufactured from ore of \$3 per ton on the proportion produced from Canadian ore and \$2 on the proportion produced from foreign ore. Bounties to cease on 23rd April, 1902.*

The Legislature of Ontario passed an Act in the session of 1894 appropriating the sum of \$125,000 to be known as the Iron Mining Fund. Out of this fund the treasurer is authorized to pay \$1 per ton of pig-metal product of iron ores raised or mined and smelted in the province of Ontario, the amount so paid not to exceed in any one year, \$25,000.

Under the Ontario Act mentioned above the Hamilton Iron and Steel Company began operations on 1st February, 1896.

1st. Interchangeable mechanism, the manufacture of which requires the highest skill and workmanship. (This class includes sewing machines, firearms, locomotive engines and agricultural implements.)

2nd. Hardware, cutlery and edged tools

3rd. Machinery.

4th. Castings and forgings.

5th. Rails and railway supplies.

6th. Other forms of iron and steel.

7th. Pig-iron.

Classes 6 and 7 include (1st) pig-iron, the basis of the iron and steel industries, and (2nd) other forms of iron and steel in the making of which skilled labour enters to a limited extent. They constitute the raw material entering into the manufacture of iron and steel articles by Canadian workmen, and are (in addition to pig-iron), bar-iron, rolled or hammered, boiler plate, steel bloom ends, rolled-iron for horse-shoe nails, steel for skates, files or saws, wrought scrap-iron, &c. and parts of articles in other respects manufactured in Canada.

Taking the above division and applying it to our imports from Great Britain and the United States, from which two countries came, in the two periods under consideration, 98 per cent and 95 per cent, respectively, of the whole import, we obtain the following results :—

COPPER.

Copper occurs in Canada in the forms of native or metallic copper and the sulphuretted ores. The former is confined principally to the upper copper-bearing series on Lake Superior. The latter is used. In Ontario, on the north-eastern shores of Lake Huron, the veins of rich copper ores have been mined for years.

On Lake Superior the native copper, which has been so extensively and profitably worked on the Michigan shore, exists in large quantities along the Canadian shore. In Quebec and the other eastern provinces deposits of copper have been found. In British Columbia masses of native copper have been found in various parts of the province. The largest deposits are found in the neighbourhood of Sudbury, in Ontario.

NICKEL.

In 1883 the first discovery of a deposit of nickeliferous pyrrhotite was made while the Canadian Pacific Railway Company was making a cutting through a small hill near Sudbury, in the District of Algoma, Ontario. The ore, which contains on the average about 2·25 per cent of nickel, is roasted and smelted into a copper-nickel matte, the usual composition of which, from average analysis, is about as follows :—Copper, 26·91 ; nickel, 14·14 ; iron, 31·335 ; sulphur, 26·95 ; and cobalt, ·935. The matte is also said to contain some ounces of platinum to the ton. The amount of fine nickel in the matte produced at the Sudbury mines in 1889-97 is given below.

PETROLEUM.

Petroleum has been found in Quebec, Nova Scotia and New Brunswick, and particularly in the North-west Territories where it seems certain there is an immense unexplored oil region, but it is in the county of Lambton, Ontario, whence most of the oil has been and is obtained, Oil Springs and Petrolea being the largest oil-producing districts. The oil is obtained at a depth of from 370 to 500 feet.

The following table contains the only trustworthy statistics of Canadian production of oil that are available, and these figures do not give the total production, since the quantity of crude oil, used as such, is not included :—

The Federal Parliament, in the session of 1895, passed an Act to encourage silver-lead smelting and the smelting of other ores of gold and silver, to continue in effect till the 1st July, 1900. The bounty is not to be in any one year more than \$30,000, at the rate of 50 cents per ton, nor more than \$150,000 for the whole term of years from July 1st, 1895, to July 1st, 1900. Smelting works to participate in the bounty must be established and in operation before the 1st day of January, 1897.

The following table gives the exports of silver ore during the years 1871 to 1897 :—

produced in Ontario, but shipped to Montreal for export, and at that port credited to the province of Quebec :—

ASBESTUS.

The following table, made up from returns furnished by the producers, gives the quantity and value of shipments from 1879 to 1887, after which the amount of production is given. It is believed, however, that, in some of the earlier years, the output was sometimes given instead of the quantity shipped, and, according to returns of shipments made by the Quebec Central Railway, the aggregate quantity is too high.

A BRIEF RESUME OF THE MINING LAWS OF THE
DOMINION OF CANADA AND OF THE SEVERAL
PROVINCES IS HERE GIVEN.

NOVA SCOTIA.

In Nova Scotia the province grants all its minerals with the land, except gold, silver, copper, lead, tin, iron, coal and precious stones. These latter are leased under rental and royalty for revenue purposes. The gold and silver leases are for terms of 40 years. Other minerals are leased for 80 years in four renewable terms of 20 years each.

The gold and silver areas are 250 by 150 feet, laid off with the shorter side running east and west. Any number of these areas up to 100 can be secured under a license to prospect for 12 months on payment of 50 cents an area. During this period any number of the areas can be taken under lease, or the areas can be directly applied for under lease. The price of an area under lease is \$2, and thereafter an annual rental of 50 cents per area secures it from forfeiture for non-working. If an amount of work equivalent to 40 days per annum per area is performed on the lease the rental for that year is refunded. A royalty is payable on all gold at the rate of 2 per cent, the gold being valued at \$10 an ounce smelted, and \$18 an ounce unsmelted, and at the rate of two per cent on the silver valued at \$1 per ounce.

In the case of the other minerals the payment of \$30 secures a license to search for 18 months over a tract of land 5 square miles in extent, and not exceeding 2½ miles in length.

All ores and minerals, other than gold or gold and silver, mined are subject to the following royalties :—

Coal.—10 cents per ton of 2,240 pounds of coal sold or removed from the mine or used in the manufacture of coke—royalty not demanded on coal used by the workmen or in any mining operations in and around the mine.

Copper.—4 cents upon every unit, i.e., upon every one per cent of copper contained in each and every ton of 2,352 pounds of copper ore sold or smelted.

Lead.—2 cents upon every unit.

Iron.—5 cents on every ton of 2,240 pounds of ore sold or smelted.

Tin and precious stones and any other minerals that may be reserved, 5 per cent on their values.

The Governor in Council has power to lower the rates of royalty above stated on iron, copper, lead, tin and precious stones, on being satisfied that the owners of such leased minerals have commenced effective mining operations. The leases of coal mines contain a proviso that royalties on coal may be increased, diminished or otherwise changed by the Legislature.

QUEBEC

The mining laws of the province of Quebec provide that mining rights are property separate from the soil covering mines and minerals, unless the proprietor of the surface has purchased from the Crown, as a mining concession or otherwise, the underground properties.

Mining concessions are divided into three classes :

1. In unsurveyed territory (a) the first class contains 400 acres, (b) the second 200 acres, and (c) the third 100 acres.

2. In surveyed townships the three classes respectively comprise one, two and four lots.

All lands supposed to contain mines or ores belonging to the Crown may be acquired from the Commissioner of Colonization and Mines (a) as a mining concession by purchase, or (b) be occupied and worked under a mining license.

No sale of mining concessions containing more than 400 acres in superficies can be made by the Commissioner to the same person. The Governor in Council may, however, grant a larger extent of territory up to 1000 acres under special circumstances.

The rates charged and to be paid in full at the time of the purchase are \$5 and \$10 per acre for mining lands containing the superior metals*, the first named price being for lands situated more than 12 miles and the last named for lands situated less than 12 miles from the railway.

If containing the inferior metals, \$2 and \$4, according to distance from railway.

Unless stipulated to the contrary in the letters patent in concessions for the mining of superior metals, the purchaser has the right to mine for all metals found therein ; in concessions for the mining of the inferior metals, those only may be mined for.

Mining lands are sold on the express condition that the purchaser shall commence bona fide to mine within two years from the date of purchase, and shall spend not less than \$500 if mining for the superior metals, and not less than \$200, if for inferior metals. In default, cancellation of sale of the mining land.

Licenses may be obtained from the Commissioner on the following terms. Application for an exploration and prospecting license, if the mine is on private land, \$2 for every 100 acres or fraction of 100; if the mine is on Crown Lands (1) in surveyed territory, \$5 for every 100 acres, and (2) in unsurveyed territory, \$5 for each square mile, the license to be valid for three months and renewable. The holder of such license may afterwards purchase the mine, paying the prices mentioned.

Licenses for mining are of two kinds. Private lands' licenses, where the mining rights belong to the Crown, and Public lands' licenses.

* The superior metals include the ores of gold, silver, lead, copper, nickel, graphite, asbestos, mica and phosphates of lime. The words 'inferior metals' include all other metals and ores.

These licenses are granted on payment of a fee of \$5, and an annual rental of \$1 per acre. Each license is granted for 200 acres or less, but not for more; is valid for one year and is renewable on the same terms as those on which it was originally granted. The Governor in Council may at any time require the payment of the royalty in lieu of fees for a mining license and the annual rental—such royalties, unless otherwise determined by letters patent or other title from the Crown, being fixed at a rate not to exceed three per cent of the value at the mine of the mineral extracted, after deducting the cost of mining it.

ONTARIO

The Mines Act of Ontario provides for the abolition of all royalties imposed upon ores or minerals within the province prior to the 4th day of May, 1891. Reservations of gold and silver mines contained in any patent issued prior to the above date are made void, and all such mines in and upon such lands are deemed to have been granted in fee simple and to have passed with the lands, excepting as to lands patented under the Free Grants and Homestead Act, Revised Statutes, Ontario, 1897.

All ores and minerals mined on lands located, sold, granted or leased by the Crown from the 4th day of May, 1891, to the first of January, 1900, are subject to a royalty to the Crown. The royalties on ores of silver, nickel and copper and iron are at the rate of two per cent, and on all other ores such royalty as shall be from time to time imposed by Order in Council, not exceeding two per cent; such royalties to be calculated upon the value at the mine after deducting the cost of labour, explosives, raising the ore to the surface, and subsequent treatment thereof for the market. Royalties are not to be imposed or collected until after seven years from the date of the patent or lease.

Any person may explore for mines and minerals on any Crown land not staked out or occupied, and not withdrawn from sale by Order in Council as being valuable for pine timber or other reason. Crown lands supposed to contain ores or minerals may be sold as mining lands, called mining locations, or may, when situated within a mining division, be staked out and worked as mining claims under miner's license.

Mining locations in the territory north of Lake Superior and Lake Huron and of French River and the River Mattawa are required to be of rectangular shape, containing not less than 40 acres, and are sold as follows:—If in a surveyed township and within six miles of a railway, \$3 per acre, if beyond six miles, \$2.50; if in unsurveyed, \$2.50 and \$2, according to distance from railway. When in any other region the price is \$2 and \$1.50, according to distance from railway. All these mining locations revert to the Crown in default of the expenditure in actual mining operations of \$1 per acre during the first two years and of \$1 per acre in each year of the next five years.

In addition to granting mining lands in fee simple, the province also grants leases of such lands for a term of ten years, renewable for a second like term. The rental is \$1 per acre for the first year and 25

25 cents per acre per annum for subsequent years in the lands situated in the districts north of the French and Mattawa rivers and Lake Nipissing and 60 cents the first year and thereafter 15 cents per annum for lands situated elsewhere. These leases are all renewable after the second year by further terms of 20 years.

Miners' licenses in territories which may be set apart as mining divisions are granted for one year on payment of \$10, renewable for another year on payment of a like fee. The holder of a license may stake out a claim of 15 chains square, or $22\frac{1}{2}$ acres, or 20 chains square, 40 acres, and he can hold it as long as mining operations are carried on upon a scale of one man's labour for five months, or its equivalent if two or more men are employed during each calendar year. Where the licensee desires to procure a patent or lease of a claim he may do so by completing the working conditions at a rate of ten months of one man's labour on a claim of $22\frac{1}{2}$ acres, or of 15 months on a claim of 40 acres.

He is required to procure a survey of the land and to pay in the purchase money or first year's rental.

The Legislature of Ontario created a Bureau of Mines in 1891. Mr. Alibald Blue was made director, and he has issued several valuable reports.

BRITISH COLUMBIA

The Mining Laws of British Columbia provide, with respect to coal mining, that a prospector for coal or petroleum on leased Crown Lands in which the minerals are reserved, before obtaining a license, shall place a post at one angle of the land with his name and the initials of the angle and shall post a notice of his application on the land and on the Government office of the district for 30 days, and shall advertise it in the British Columbia Gazette and some local newspaper for 30 days.

Security for damages must be given if the Crown Lands in question have been leased or are covered by a timber license.

After the expiration of the 30 days, and within two months from the application in the Gazette, an application in duplicate (with a plan and a fee of \$50 for each and every license) must be sent to the Assistant Commissioner of Lands and Works for a prospecting license for not more than one year, when the Chief Commissioner may grant the license. Such lands must be in one rectangular block with sides running north, south, east and west, and of area not exceeding 640 acres.

The license shall cease at its expiration, and a new license may be granted to a new applicant.

On proving that he has *bona fide* explored for coal during the year he shall be entitled to an extension for a second year on payment of \$50, and a further extension for a third year may be granted. License holders of adjoining lands not exceeding ten, may work in partnership, when they need not prospect separately, provided the Chief Commissioner is satisfied with the prospecting done on the land of one of them.

The licensee may use the timber and stone on the land for the pur-

pose of buildings on the land. Dispute as to right of title shall be decided in the County Court. No transfer for a prospecting license may be made without written notice to the Chief Commissioner of Lands and Works.

The Lieutenant Governor in Council may grant to a prospecting licensee a lease for five years at a rent of 10 cents on proof that he has discovered coal on the land; and if during this term, or three months thereafter, he can show that he has continuously and vigorously carried on coal-mining he shall be entitled to purchase the land at \$5 an acre, in one payment, at time of sale.

Before the lease is issued a survey must have been made by the applicant. Besides the 10 cents rent a royalty of 5 cents a ton on coal and 1 cent a barrel on petroleum must be paid. The lessee must carry on coal-mining continuously. Any number of persons, not exceeding ten, may work in partnership on adjoining lands, when it shall not be necessary to work each leasehold separately, provided work on one is done to the satisfaction of the Chief Commissioner.

(Cons. Act, 1888, Chap. 83, and amending Acts; 1890, Chap. 32; 1892, Chap. 31, and 1895, Chap. 37.)

Proprietors of coal mines may acquire such portion of any Crown Lands, or lands held under pre-emption or Crown grants or lease or license, as may be necessary for a right of way to the sea shore, a river or public highway, together with a block not exceeding 5 acres on the shore, river or highway. Minerals are not to be conferred by the conveyance without the consent of the grantor. Compensation shall be paid by agreement or arbitration. (Cons. Acts, 1888, Chap. 83, amending Act, 1890, Chap. 32, and Chap. 137, Acts of 1897.)

Regulation of Coal Mines.—No boy under twelve, no woman or girl of any age and no Chinaman shall be employed under ground in coal mines.

Boys from thirteen to fourteen shall only be employed under ground in exceptional circumstances to be allowed by the Minister of Mines.

There are various other regulations as to the employment of young persons.

No wages shall be paid to employees of a coal mine in a public house or contiguous office or place.

Coal getters must be paid by weight, unless exception is allowed by the Minister of Mines; and a check weigher may be appointed by them.

There are a number of regulations to secure safety. (Cons. Act, 1888, Chap. 84; amending Acts, 1890, Chap. 33; 1894, Chap. 5; 1897, Chap. 38; and 1897, Chap. 138.)

Mining, other than Coal.—Persons over 18 years of age and joint stock companies may become "Free Miners" on taking out certificates (which are not transferable) for one year in case of joint stock companies, and for one or more years in case of individual miners.

Every person or joint stock company mining (except for coal) must take out a free miner's certificate, under penalty of \$25. Owners and contractors shall pay the free miners' fees of their employees, deducting

amount from them and giving a list to the Mining Recorder, under penalty of \$100.

No person unless he has an unexpired free miner's certificate can hold any mineral claim, minerals or mining property.

Free miners may prospect and mine (except for coal) upon any Crown Lands or lands where minerals are reserved to the Crown provided they may not locate or mine on land uncovered by hydraulic mining works for six months, and provided they must give security for damages to any occupier.

FEES

For every free miner's certificate issued to an individual. \$ 5 00

For every free miner's certificate issued to a joint stock company—

(a.) Having a nominal capital of \$100,000 or less . . . 50 00

(b.) Having a nominal capital exceeding \$100,000. . . 100 00

Free miners may cut timber necessary for their mining upon Crown Lands, even if covered by timber lease or reserved, and they may kill game for their own use at any time.

A free miner may locate a mineral claim measuring 1,500 feet square as nearly rectangular as possible, marking it by two posts, 1 and 2, on the line of the vein not more than 1,500 feet apart, or a fractional mineral claim can also be marked out. On No. 1 post of a mineral claim shall be written the names of the locator and the claim, the date, the compass bearing of No. 2 post and the number of feet (of the 1,500) lying to the right and left respectively of this line; these particulars are to be furnished also to the Mining Recorder. He must mark the line by blazing trees or post-planting and place a post where he found gold "in place," and as near as possible to the four corners of the claim. He is entitled to all minerals within the claim. The claim is not to be recorded without an affidavit that mineral has been found "in place" on the claim, that the legal notes and posts have been put up, that ground is unoccupied, &c. A location made on Sunday or a holiday is not invalid. Where, from the nature of the ground, the location cannot be thus marked, posts may be set as near as possible and the direction and distance recorded. The free miner shall record his claim with the Mining Recorder within 15 days, if his office is within 10 miles, with an additional day for every additional 10 miles. A claim recorded by error in the wrong district may be recorded anew in the right district with the original date. If left in the Recorder's absence the applicant is entitled to a record of that date. The claim may be held from year to year on a certificate by the Gold Commissioner, or Mining Recorder, that work has been done on it to the value of \$100. Assessment work to be entered in certificate. A free miner or partners having adjoining claims may work them together, and may obtain certificates for all the claims for sufficient work done on one. A free miner may, in lieu of work, pay \$100 to the Mining Recorder. Disputes as to titles are determined by priority.

No free miner can hold (except by purchase) more than one claim on the same vein or lode, but he may hold by location a claim on a separate vein or lode. He may abandon his claim by notice in writing to the Recorder and may remove his machinery and extracted ore; he cannot re-locate the same claim (or one which he has not recorded) without written permission from the Gold Commissioner.

Lodes discovered in a tunnel to develop a lode may be marked off as a mineral claim and recorded by the owner. The interest of a free miner in his claim is deemed a chattel interest.

The lawful owner of a mineral claim is entitled to a Crown grant of payment of \$500 to the Government in lieu of expenditure (assessments) on work to be considered a part of \$500, and after having obtained a certificate of improvements from the Gold Commissioner. With a certificate of improvement the owner need not take out a free miner's certificate, or work on the claim to hold it.

With a certificate of improvement the owner of a claim outside the railway belt is entitled to a Crown grant, and inside the railway belt to payment of \$5 an acre to the Mining Recorder.

The claim for the grant must be made within three months. The issue of the grant does not invalidate any previous lien. The grant covers all minerals except coal.

Conveyances, mortgages, &c., of mineral claims shall be recorded and shall not be good against third parties, and transfers must be in writing. A free miner's claim shall not be open for location during his last illness, nor for twelve months after his death. The Gold Commissioner and official administrator administer miners' estates.

A mill site may be located by a free miner, not over five acres in extent, on unoccupied and unreserved Crown Lands not known to contain minerals. He may obtain a lease for one year, during its continuance, on proof of having expended \$500 on machinery, and shall be entitled to a Crown grant for \$5 an acre. This applies to former lease also. Minerals are not included in the grant.

Tunnels or drains may be run for a free miner to work his claim by license from the Gold Commissioner. Water rights may be granted to him by the Gold Commissioner, and must be recorded, rights of others working on the streams being safe. He may not sell the water, and the grant shall cease when the mine is no longer worked. Work must be begun within 60 days; and there must be no waste of water and an outlet must be provided for superfluous water.

Mining partnerships and limited liability companies are regulated by a number of clauses.

The duties of Mining Recorders and Gold Commissioners are fully laid down. Free miners may elect by a two-thirds vote a Recorder where there is none.

County Courts have mining jurisdiction which is fully provided for.

Any person contravening the Act or refusing to obey the lawful order of a Gold Commissioner or Judge is liable to a fine of \$250 or three months' imprisonment.

An annual tax of 25 cents an acre is payable on every claim held under Crown grant. This tax shall be remitted on proof that the sum of \$500 has been expended on the claim within the year.

Mines and moneys invested in them are not exempt from provincial taxation.

The Lieutenant-Governor in Council may make orders to carry out the Act.

(Cons. Act, 1888, Chap. 82, and amending Acts, 1889, Chap. 16 (repealed), 1890, Chap. 31 (repealed); 1891, Chap. 25; 1892, Chap. 32; 1893, Chap. 29; 1894, Chap. 32, and 1895, Chap. 39; 1896, Chap. 34; 1897, Chap. 45; and Acts of 1898.)

Placer Mining Act.—Every free miner holding a certificate may mine for gold or other precious metals on any land except Government reserves for town sites, lands occupied by buildings, curtilages and orchards, or for placer mining or Indian reserves. He must give security for damages.

He may locate a placer claim on each separate creek, ravine or hill, not more than two in the same locality, and only one a creek claim, but he may hold any number for purchase. A creek claim shall be 100 feet long, and in width, from base to base of the hills; a bar diggings claim shall be a strip 100 feet long, and in width, from high water mark to the lowest water level; a dry diggings claim shall be 100 feet square, and the same for bench diggings and hill diggings. Discoverers of new mines shall be allowed: If one, a claim of 300 feet long; if a party of two, 600 feet; if three, 800 feet; if four, 1,000 feet; if more than four, ordinary claims.

Placer claims shall be as nearly rectangular as possible. Posts shall be placed at the corners, and the initial post shall bear names and description. Locations on Sundays and holidays shall not be invalid. Placer claims must be recorded with the Mining Recorder. The removal of posts entails forfeiture. Records of placer claims may be renewed on payment of the fees, \$2.50 a year.

A placer claim gives no right to a vein or lode unless the ground is located and recorded as a mineral claim.

A placer claim must be worked continuously by the holder or his employee, and shall be held abandoned and forfeited if unworked for 24 hours, except for reasonable cause, satisfying the Gold Commissioner. A year's leave of absence may be given if the sum of \$1,000 has been expended without reasonable return, or if all holders of the set of claims sign the application.

Provisions as to the tunnels and drains, water rights (see 1879, cap. 4) partnerships, mining recorders, gold commissioners, county courts, penalties, paying free miners' fees for employees, are much the same as those regarding mineral claims.

Provisions are made for "bed-rock flumes."

Free miners may obtain a lease of placer-mining ground for 20 years as follows:—Before application for lease, legal posts to be placed, with names and descriptions, and plans, &c., to be deposited with Mining Recorder; creek diggings, or abandoned or unworked creeks, half a

mine in length, and other placer mining grounds, 80 acres, previous to 1888, 100 acres. The lease may be renewed. The ground may be already occupied, or not, at the consent of the occupiers, nor immediate available for agricultural purposes, and only placer mining must be carried on there. The area of the lease is not to exceed 640 acres, as provided for by Act of 1888, amending the Placer mining Act 1861.

Water may be granted by the Gold Commissioner for hydraulic workings on bench lands.

Leases may be granted for twenty years of the bed of the river for dredging for a distance not over five miles.

(Act 1861, Chap. 26, and amending Acts, 1864, Chap. 33, and 1897, Chap. 40, 1896, Chap. 35, 1897, Chap. 29, 1897, Chap. 45.)

A Bill intitled "An Act to repeal an Act to aid the Development of Quartz Mines," and amending Act has been passed (1896, Chap. 36). An Act to amend the Placer Mines Act (1861) was passed in the session of 1898.

Counting the consolidated Acts of 1888 and subsequent amending Acts to 1898, there have been twenty-four British Columbia Acts relating to mining, without reckoning several special Acts concerning hydraulic mining companies.

The Mineral Act, 1861, Chap. 34, as amended by 1897, Chap. 29, has been consolidated for convenience only.

The Placer-mining Acts have been also consolidated.

A Bureau of Mines was established in 1895, under the Minister of Mines, with a Provincial Mineralogist, whose duty it is to collect information relating to the mining industry, and publish it. Besides a museum there are to be lecture rooms, an assay office and laboratory where assays and tests may be made according to a schedule of fees. Arrangements may be made for giving instructions to prospectors and others, and societies of arts and other societies may affiliate with the Mining Bureau for the instruction and examination of students.

A Bill intitled the "Inspection of Metaliferous Mines Act, 1897," provides for the appointment of an Inspector, and containing Rules and Regulations for the safe working of mines other than coal.

DOMINION

The Dominion Government have provided regulations for the disposal of coal lands, the property of the Dominion in Manitoba, the North-west Territories and British Columbia.

Lands containing anthracite coal may be sold at an upset price of \$20 an acre cash, and coal other than anthracite at an upset price of \$10 per acre cash. Not more than 320 acres can be sold to any one applicant. The Minister of the Interior has power to grant an applicant, upon receipt of the fee of \$10 permission to prospect for coal over an area of 320 acres for a period of 60 days.

The regulations governing the disposal of mineral lands other than coal apply to Dominion Lands in Manitoba and the North west Territories, including the Provisional District of Yukon, and relate to lands containing gold, silver, platinum, iridium or any of the platinum group.

minerals, mercury, lead, copper, iron, tin, zinc, nickel, aluminium, antimony, arsenic, barium, bismuth, boron, bromine, cadmium, chromium, cobalt, iodine, magnesium, manganese, molybdenum, phosphorus, uraniferous, potassium, sodium, strontium, sulphur, asbestos, emery, mica and mineral pigments.

A location for mining, except for iron and mica on veins, or lodes of quartz or other rock in place, must not be of larger dimensions than 500 feet in length and 1,500 feet in breadth.

Every person eighteen years of age and over, and every joint stock company may secure a non transferable free miner's certificate by paying, in the case of an individual, a fee of \$10; in the case of a joint stock company with a nominal capital of \$100,000, a fee of \$50, and \$100 where the nominal capital exceeds \$100,000. This certificate runs for one year. It grants to the holder the right to search for minerals, &c., the privilege of fishing and shooting and of cutting timber for actual necessities. It is renewable on production of the certificate or (in case of loss) of a substituted certificate. During its continuance it gives the holder the right personally to enter, locate, prospect and mine upon any vacant Dominion lands except Dominion lands in British Columbia, and upon all lands, the minerals in which have been reserved by the Crown. The free miner locating his mineral claim under his certificate must stake it out and record the same with the Mining Recorder, having 15 days to do so if within ten miles of the Recorder's office, an additional day being allowed for each additional ten miles. On expiry of the certificate the non-certificated person is not entitled to mining property except in cases where a Crown grant has issued.

Having duly located and recorded a mineral claim the free miner is entitled to hold it as long as he pleases on condition that each year he does work on the claim (or in direct proximity and having relation to it) to the value of \$100, or pays that sum to the Mining Recorder. A lawful holder is entitled to a Crown grant by payment to the Dominion Government of \$500 in lieu of expenditure on the claim, and \$5 per acre, cash, if the mining location is on vacant lands of the Crown, and \$2 per acre, cash, if on other lands of which the surface rights are not available for sale.

The lawful holder is entitled to receive from the Mining Recorder a certificate of improvements if he has complied with the requirements, (a) done work on the claim in actual development to the value of \$500, (b) found a vein or lode on the claim, (c) had the claim surveyed at his own expense, (d) posted on the land and in the Recorder's office the name of the lawful holder and his intention to apply for such certificate at the end of sixty days. Within three months after obtaining the certificate of improvements, the holder must make application to the Minister of the Interior for a Crown grant, inclosing the certificate, the Mining Recorder's receipts for payment of purchase money at the rate of \$5 per acre (or \$2 if the mining right only is being obtained) and a Crown grant fee of \$5. In the Yukon the Government impose a royalty of 10 per cent on a fixed value of the gold produced.

Under an Act passed in 1882 to encourage sea-fishing and the building of fishing vessels, provision was made for the distribution of \$150,000 annually among the fishermen and vessels. By Act of 1891, chapter 42, the amount was increased to \$160,000. Vessels in 1896 were paid at the rate of \$1 per ton to owner, \$5 each to vessel fishermen, \$2.50 per man to boat fishermen, and \$1 per boat to the owners. The number of vessels which received bounty in 1896 was 862, with a tonnage of 28,551, showing a decrease of 45 vessels and of 1,605 tons as compared with 1895. The number of boats on which bounty was paid was

14,106, and the number of boat fishermen who received bounty was 23,821, being an increase of 233 boats and a decrease of 737 fishermen, as compared with the previous year. The total number of fishermen in vessels and boats to whom bounty was paid in 1896 was 29,486 as against 30,808 in 1895. The number of fishing bounty claims filed was 15,211 and the number paid was 14,975. The total bounties paid since 1882 amount to \$2,364,406, distributed as follows :—

STATISTICS OF TRADE AND COMMERCE

TRADE AND COMMERCE.

The legal weights and measures of Canada are the Imperial yard, Imperial pound avoirdupois, Imperial gallon (of 277·27384 cubic inches), and the Imperial bushel. The Imperial gallon is equal to 4·54174 litres, while the wine gallon, used in the United States, is equal to 3·785 litres.

By Act 42nd Vic. (1879), Chap. 16 (amended by Cap. 30, Acts of 1898), it is provided: That in contracts for sale and delivery of any of the undermentioned articles the bushel should be determined by weighing, unless a bushel measure be specially agreed upon, the weight equivalent to a bushel being as follows:—

Wheat	60 lbs.	Castor beans	40 lbs.
Indian corn	56 "	Potatoes	60 "
Rye	56 "	Turnips	60 "
Pease	60 "	Carrots	60 "
Barley	48 "	Parsnips	60 "
Malt	36 "	Beets	60 "
Oats	34 "	Onions †	50 "
Beans	60 "	Bituminous coal	70 "
Flax seed*	56 "	Clover seed	60 "
Hemp	44 "	Timothy	48 "
Blue grass seed	14 "	Buckwheat	48 "
Lime‡	80 "	Bituminous coal‡	70 "

By the same Act the British hundredweight of 112 pounds and the ton of 2,240 pounds were abolished, and the hundredweight was declared to be 100 pounds and the ton 2,000 pounds avoirdupois, thus assimilating the weights of Canada and the United States.

*Changed from 50 to 56 lbs. by Act of Parliament, 1898. †Changed from 60 to 50 lbs. by Parliament, 1898. ‡Added by Act of 1898.

As values alone cannot give a correct idea of the extent to which the trade of a country is increasing or decreasing, in order to obtain some information concerning its volume as well as its value, the following tables are given, in which the actual increase or decrease in value is divided into two parts, the one representing the variation in volume and the other in price. For example, take the article, tobacco, unmanufactured, as given in the next table, the imports of which in 1896 amounted to 9,850,441 pounds, valued at \$1,347,377, while those of 1897 were 15,946,527 pounds, valued at \$2,052,841, the value in the latter year being \$705,464 more than in the former. Now, had the quantities been the same as in 1897 the value would have been \$130,000 less, owing to the fall in price, but this decrease in value is offset to the extent of \$835,000 by an increase in quantity. The following table is a comparison as to quantity and value of the principal articles of import in 1897 and 1896. Individual calculations for 322 articles have been

made, in order to make up the 68 specified articles in the table, and it is considered these are sufficient to justify the assumption that the remaining articles in each class may be taken in the same ratio. It will be seen that not only a fairer, but also a more instructive estimate can be formed of the condition of the trade of the country by this mode of comparison than by the ordinary one of values only.

The import trade of 1897 showed an increase of \$4,527,000 in volume and a decrease of \$3,820,000 due to a decline in price. The actual increase amounted to \$706,541.

The following summary, which perhaps sets off these results to better advantage, shows that the year 1897 was marked by a decided increase in the volume of our import trade, it was also marked by a decrease in price:—

* Includes \$9,873 duties collected at Port Cudahy.

Of the total amount of duty collected, \$6,205,367, or 31·20 per cent, were collected on goods from Great Britain, and \$8,147,075, or 40·6 per cent, on goods from the United States. The next largest amounts were collected as follows :—On goods from Germany, \$1,489,756 ; France, \$69,540 ; and from Holland, \$920,096. The duties on imports from the West Indies were affected by the abolition of the sugar duties, and fell from \$1,337,754 in 1891 to \$207,429 in 1897. The imports of free goods from the United States were 50 per cent, while only 30 per cent of the imports from Great Britain were on the free list.

The figures in the preceding table must only be taken as indicative of the channels by which goods enter the Dominion, and not as by any means representing the individual consumption of each province. Quebec contains the principal ports of entry, by the St. Lawrence, and Ontario the principal ports of entry for goods from the United States ; therefore, it is clear that a very large portion of the duty collected is really paid by the other provinces, and it is probable that the largest portion of the duty collected in the province of Quebec is actually paid by the province of Ontario. The same remarks are equally applicable to exports, even many products of Prince Edward Island being taken across to the mainland and thence shipped from Nova Scotia and New Brunswick ports, to which provinces they are credited as exports.

The following table shows the growth of the imports of raw materials since confederation :—

It may be remarked that many articles of import, which are real produce of South America and the West Indies, are credited to the United States, from which country they are bought at second-hand as coffee, sugar, hides, &c.

Value of imports entered for home consumption in the years 1876 and 1896, showing the countries from which imported, and the proportion in each case to the total value.

* Imports for Home Consumption and Exports of Canadian produce only.

In order to ascertain in what proportion the changes in a series of years in the values both of particular items and in the grand total, have been due to an increased or diminished volume of articles or to a variation in their price, tables relating to the exports of Canadian produce have been prepared on a plan suggested some time ago in the "Journal of the Royal Statistical Society," by Mr. Stephen Bourne, F.S.S., by which, by means of index numbers, it can be readily seen in what respects the results of the several years correspond to or differ from one another, both as regards quantity and price. The year 1883 has been taken as the year of comparison, because in that year—with the exception of 1892, 1893, 1896 and 1897 the total trade of the country reached the highest amount since confederation, and, as long as the conditions of trade are fairly equal, it is not very material which year is used for the purpose. Individual calculations have been made for 63 distinct articles, in order to make up the several groups in the table, and these furnish a wide enough range for assuming that the remaining articles, many of which cannot, for want of definite information in the Trade and Navigation Returns as to quantities, be so estimated, may be taken in the same ratio as the specified articles are found to yield. The num-

has been taken to represent the value of the exports of 1883, 702,000, and has been divided up into so many numbers as the specified articles, the values of which made up the sum of 100. This 1,000 has also been taken as the number for quantity, and as the index number for value of each article, divided by that of price, becomes the index number of quantity, and represents the volume of last year's transactions as compared with the index of value. For example, in 1883 the exports of coal were 1,102,067 tons, valued at \$1,087,411; in 1897 they were 1,102,067 tons, valued at \$3,330,017; the price per ton being \$2.52 and \$3.02 respectively, 20 per cent higher in 1897. The value index of 12.3 stands for 1883, but being multiplied by 1.20 we change it into 14.8 to represent the value, \$1,208,000, which would have accrued had the price been the same as in 1897. Or, reversing the process, we divide the index, 38.0 for 1897 by 1.20 giving 31.7 to show the value, \$702,000, which the coal of that year would have realized had it been the same as in 1883, and thus get the ratio of quantity to value for this article. In the same way, by means of these tables, comparisons can be made either backwards or forwards, and either of specific articles or of totals will be appreciated by those who are at all conversant with such matters.

figures below give the actual values and index numbers for the comprised in the table, and also what the index numbers and would have been at the prices of 1883, the basis of comparison still the same :—

By this mode of comparison it would appear that the value of the aggregate trade during the years named would, if the prices of 1883 had been maintained, have been \$172,526,000 more than it actually was.

The next table gives what the actual index numbers and values would have been at prices of 1882-97 :—

EXPORTS OF 1883.

" 1896.....	"	861 =	75,511,000
" 1897.....	"	822 =	72,091,000

From the following table it will be seen that if the exports of 1897, \$123,960,000, are estimated at the export prices of 1883 they would amount to \$154,004,000, or \$30,044,000 more than they actually were. Adding this amount to the actual difference, \$36,258,000, it will give a total increase of \$66,302,000 over exports of 1883 :—

following table shows that if the exports of 1883, \$87,702,000 valued at the export prices of 1897, they would amount to \$103,369,000, 1883 exports being \$15,611,000 more. Deducting this from \$36,258,000, actual difference, it leaves the exports of 1883 less than 1897 by \$20,647,000.

Imports and exports.

Figures made at 5 to £1.

Imports into British possessions during 1895 amounted to \$538,394,268, of which \$538,394,268 came from the United Kingdom, \$1,469 from other countries; corresponding figures for 1896 \$556,552,740, of which \$556,552,740 were imports from the United Kingdom, and \$625,703,673 from other countries, show an increase in the United Kingdom of \$18,658,472, and an increase from other countries of \$73,182,204, and a total increase of \$91,340,676. The percentage of the amount imported from Great Britain to the total imports was 47·1, in 1895, 49·3 per cent.

The following table taken, with the exception of the figures for 1893, and 1896, which have been added in this office, from "Multi-Yearly of National Progress," p. 30, shows the distribution of the United Kingdom at various dates, and shows also

that the trade with India and the Colonies has increased in a much greater degree than that with foreign countries :

including Newfoundland.

According to Dun & Co., 25·4 per cent of the failures in Canada in 1891 were manufacturing firms, 72·7 trading, and 1·9 “other,” the losses of the manufacturing class being 25·8 per cent of the total losses, and those of the trading class being 70·2 per cent, “others” 4 per cent.

The following gives the two sets of figures, both including Newfoundland, except in 1894 to 1897, when both agencies separated Newfoundland from Canada :—

POST OFFICE AND OTHER SAVINGS BANKS.

The Post Office Act, which provides for the establishment of Post Office Savings Banks in Canada, was passed on the 20th December 1867, and was limited in operation, as regards the savings banks, to the provinces of Ontario and Quebec. Under its provisions a deposit must not be less than \$1, and by Order in Council, 7th February, 1891, must not exceed \$1,000 in any one year; neither must the total amount of deposit exceed \$3,000. On the first September, 1885, the system was extended to the provinces of Nova Scotia and New Brunswick, and the offices are now distributed in the several provinces as follows: Ontario, 456. Quebec, 133; Nova Scotia, 49; New Brunswick, 3; Manitoba, 25; British Columbia, 24; Prince Edward Island, 8; and the Territories, 22, making a total of 755.

Government savings banks, under the management of the Finance Department, have been established in the maritime provinces and in Manitoba and British Columbia. In these, deposits are allowed to the extent of \$1,000. The number of offices under this system is 28, viz. 18 in Nova Scotia, 6 in New Brunswick, 1 in Prince Edward Island, 1 in Ontario, 1 in Manitoba, and 1 in British Columbia. On the 30th June, 1897, there were 48,367 depositors, with \$16,554,147 on deposit. Arrangements are made for the transfer of the Government savings banks in each province to the Post Office Department, as the position of superintendent at each place becomes vacant. Transfers were made during 1897—one in New Brunswick, three in Nova Scotia, and one in Prince Edward Island.

rate of interest paid in both classes of savings banks was formerly 4 per cent, but on 1st October, 1889, it was reduced to 3½ per cent, and on 1st July, 1897, it was reduced to 3 per cent.

The Post Office system went into operation on the 1st April, 1868, and 100 offices were opened. At the close of the three months ended March, 1868, there were 2,102 depositors, 3,247 deposits had been made, and the amount on deposit was \$204,589. On the 30th June, 1868, there were 779 offices opened, 135,737 depositors, and the total amount on deposit was \$32,380,829.

In addition to the above there are special savings banks, chiefly the Bank of the Economie of Quebec and the Montreal City and District Savings Banks. The chartered banks also have savings branches, but the amount on deposit in these branches are not separated from the general business and other deposits in the returns to the Government.

The following table gives the deposits with the Government in the savings banks under Government control and the deposits in the special savings banks, but does not include deposits in the chartered banks, the loan companies and building societies :—

RAILWAYS AND CANALS.

There were 16,550 miles of railway in operation in the whole Dominion on the 30th June, 1897, and 16,687 miles of track laid. The distribution by provinces is as follows :—

MILEAGE OF TRACK LAID AND SQUARE MILES OF AREA TO EACH MILE OF RAILWAY.

PROVINCES.	MILES OF TRACK LAID.		Square miles of area to each mile of track laid in 1897.
	1867.	1897.	
Ontario	1,275	6,647	33·0
Quebec	523	3,232	106·4
New Brunswick	196	1,453	19·3
Nova Scotia	93	930	22·1
Prince Edward Island		210	9·5
Manitoba		1,575	40·7
The four North-west Territories		1,780	223·7
British Columbia		860	444·5
Total	2,087	16,687

In addition to the above there are 28 miles of railway owned by five coal and iron companies, all in Nova Scotia. This mileage is all of the 4 ft. 8½ in. gauge, with the exception of seven miles with a 3 ft. 1 in. gauge.

Taken according to population :

Ontario	has population,	43·7	per cent ;	railway miles,	39·8	per cent
Quebec	"	30·8	"	"	19·4	"
Nova Scotia	"	9·3	"	"	5·6	"

Canada has 158 railways. Twenty-five of these have been amalgamated and form the Grand Trunk railway system. The consolidation of 25 others has produced the Canadian Pacific railway system. The remaining 108 have more or less consolidated. Two of these are bridge companies with 3⅓ miles of rails; one is a tunnel, with 2¼ miles of rails, and eight are electric railways, with 113 miles of rails.

The mileage (rails laid) of these several organizations is :

Canadian Pacific.....	6,283·36
Grand Trunk.....	3,161·98
Intercolonial and Prince Edward Island.....	1,360·50
Other railways.....	5,763·01
Electric railways (eight).....	112·96
Bridges and tunnel	5·56
Total	16,687·37

As a rule, the railways of Canada are built with a gauge of 4 feet 8½ inches. The exceptions to the rule are the Carillon and Grenville (13) with a gauge of 5 feet 6 inches, the Prince Edward Railway (211) with a gauge of 3 feet 6 inches, and the Montfort Colonization (21) and the Alberta Coal (64) railways, each with a gauge of 3 feet.

The Dominion Government has contributed at the rate of \$8,985 per mile constructed, the Provincial Governments at the rate, on an average, of \$1,868 per total mileage constructed, and the municipalities at the rate of \$936 per mile on total mileage.

The receipts per train mile in Canada were \$1.14 per mile, being lower than those of the United Kingdom and most of the Australasian colonies, but higher than in the principal European countries, as shown by the following table :—

GROSS RECEIPTS OF RAILWAYS PER TRAIN MILE.

New Zealand.	\$1 90	Austria-Hungary	\$1 24
New South Wales	1 85	Russia	1 11
South Australia	1 32	Italy (State lines)	1 01
United Kingdom	1 33	Germany (State lines)	0 85
Victoria	1 28	France	1 02
Canada	1 14	Belgium	0 67
Queensland	1 30	Tasmania	0 95
Western Australia	1 13		

The average amount received per ton of freight carried in Canada in 1896 and 1897 was \$1.33 against \$1.37 received in 1895, being lower than in the Australasian colonies, Russia, Roumania, Italy, France and Austria-Hungary, but higher than in the other countries named below.

AVERAGE AMOUNT RECEIVED PER TON OF FREIGHT CARRIED

Queensland	\$ 2 98	Canada	\$1 33
South Australia	3 47	Austria-Hungary.	1 48
Russia	2 90	Denmark.	1 11
New South Wales	2 39	Switzerland	1 11
Roumania	1 99	Norway	0 85
Italy	1 82	Germany	0 79
Victoria.	2 70	Holland	0 75
New Zealand.	1 62	United Kingdom	0 68
France	1 52	Belgium.	0 65
Tasmania	1 95		

The greater distances to be travelled, no doubt, account for the average amount being higher in the colonies than in the United Kingdom and European countries.

The average capital cost per completed mile of railroad in Canada has been, up to the present time, \$55,244, which is lower than in European countries and the United States, but higher than in most of the Australasian colonies, as shown by the following table, taken partly from the Victorian Year-Book, 1894, the conversions having been made in this office :—

Outstanding loans of this kind on 30th June, 1897, were: Kent Northern Railway of New Brunswick, \$58,334; Halifax Cotton Company, siding, \$4,335; Steel Company of Canada, \$11,965; Albert Railway Company, \$14,665; Low, Reid & Co., \$1,057—in all, \$90,356.

GOVERNMENT RAILWAYS.

The railways belonging to the Government of Canada are known as the Canadian Government Railway System. They include, 1st, the Intercolonial and its branches; 2nd, the Prince Edward Island Railway.

The total mileage of the Intercolonial system on 30th June, 1897, was 1,182½ miles of operated road, including the Windsor Branch (32 miles).

The Intercolonial touches six Atlantic ports, viz., Pointe du Chêne, Pictou, St. John, Halifax, Sydney and North Sydney.

The following are the through distances :—

	Miles.
Levis (opposite Quebec) via St. Joseph and St. Charles Junction (14 miles) to Halifax.....	675
Levis to St. John	578
Levis via Truro to Sydney	827

During the fiscal year 1891 by special Act 54 Vic., Chap. 50, the Eastern Extension Railway was embodied in the Intercolonial system.

The Windsor branch is owned and maintained by the Government but is operated by the Windsor and Annapolis Railway, who pay one third of the gross earnings to the Government. The Government share is generally more than sufficient to cover the cost of maintenance and during 1897 the profits amounted to \$29,782. The road runs from Windsor to Windsor Junction, a distance of 32 miles.

Following table gives the receipts and expenditure of the Windsor railway from 1881 to 1897 :—

* These are branches of the Welland, but for the purposes of direct navigation length and number of locks are not to be taken in. † At present the depth of the canal between locks is only adapted to vessels of 12 feet draught. ‡ From the canal at Welland down to the Welland River. At lowest known water level.

The Soulanges Canal, in course of construction on the north side of the River St. Lawrence, will take, when finished, the place of the Beauharnois Canal. It will be 14 miles long; will have one guard and four lift locks, with a depth on the sills of 14 feet. The dimensions of the locks will be those of the enlarged system, 270 x 45 feet.

In connection with the St. Lawrence system of canals, the following tables are given:

* The total length of navigation waters is 126½ miles. The total distance from Montreal to Kingston by this route is 245½ miles. The lockage is 446½ feet, 282½ being rise and 164 fall.

† Thirty-five ascending and 14 decending.

On the Upper Ottawa are the Culbute works, situated at L'Islet. These surmount the Culbute and L'Islet rapids on the northern branch of the Ottawa River. The works comprise two locks and three continuous dams.

The following statement gives the amount expended on canal works and maintenance (chargeable to capital) to 30th June, 1897:—

Lachine Canal	\$ 10,408,025
Beauharnois	1,611,690
Soudanges Canal (under construction)	2,639,634
Williamsburg Canal	4,606,694
Cornwall Canal	6,392,150
St. Lawrence River Canals, surveys, &c	1,179,480
Murray Canal	1,247,479
Welland Canal	23,771,636
Sault Ste. Marie Canal	3,657,574
Ste. Anne's Canal	1,170,216
Carden and Grenville Canal	4,031,697
Culbute Canal	379,494
Rideau Canal (including Perth Branch)	4,571,172
Trent Canal	2,025,356
St. Urs Lock	121,538
Chambly Canal	637,207
St. Peter's Canal	648,756
Lake St. Louis	127,983
Total	\$ 60,297,152

In addition to the above there have been expended from income:

Renewals	\$ 2,453,498
Repairs	3,282,173
Staff and maintenance	6,764,673
Making the total expenditure	\$ 83,797,496

Of this amount the sum of \$20,692,244 was expended before Confederation, \$4,173,921 by the Imperial Government and \$16,518,323 by the Provincial Government interested. The total amount spent for construction and enlargement alone is \$71,705,483, including in this sum the cost of the surveys of the Baie Verte Canal, and at one time considered a feasible plan for uniting the Bay of Fundy and the Gulf of St. Lawrence.

The total cost of the construction of the Welland Canal to 30th June, 1897, was \$24,173,352. Of this amount \$222,220 was contributed by the Imperial Government, and \$7,416,020 by the Provincial Government prior to Confederation, leaving \$16,535,112 as the expenditure since Confederation. Of this last amount \$401,716 represents renewals chargeable to income.

The sum of \$2,352,983 has been paid out for staff, and \$2,066,842 for repairs. During the same period the receipts have been \$6,360,373. The expenditures for staff, maintenance, repairs and renewals was \$4,821,541, leaving \$1,538,832 to represent the surplus to meet interest.

The total revenue from canals since Confederation is \$11,302,527, or an average of \$376,752 a year.

The following table is a statement of the number, tonnage and value of vessels that passed through the several canals during the navigation in each of the years 1885 to 1896 inclusive and of passengers and tons of freight carried and tolls re-

*vessels not distinguished.

The coasting trade of Canada is regulated by the Act, Chap. 83, Revised Statutes of Canada, which provides that no goods or passengers can be carried by water from one port in Canada to another except in British ships. This provision, however, may be declared by the Governor General in Council not to be applicable to the vessels of any country that allows British vessels to participate in its coasting trade on the same footing as its own national vessels. By different Orders in Council ships of the following countries have been admitted to the coasting trade of Canada, viz., Italy, Germany, the Netherlands, Sweden and Norway, Austria-Hungary, Denmark, Belgium and the Argentine Republic.

The coasting trade of Canada is not included in any of the foregoing tables, but is given in the following one, since 1876, before which no returns were kept:—

* The amounts of Customs duties being taken from the Public Accounts represent the amounts actually paid in, and will not quite correspond with the figures in the Trade and Navigation Returns, these latter being for amounts accrued.

The following table shows the total cost and the cost per \$100 of collecting the customs revenue in each year since 1868. The revenue figures represent the amount accrued in each year:—

COST OF COLLECTING CUSTOMS REVENUE, 1868 TO 1897.

* Including \$250,731 reinsurance premiums. + Including Inland Marine insurance.

The business done by British fire companies during the period 1875-97 resulted in a balance in their favour of \$4,623,361, or a yearly average of \$201,015. If the adverse balance of 1877 (the year of the di-

are in St. John, N.B.) be omitted, the favourable balance would be to \$8,834,312, or an average of \$387,578 for each year.

Business done by United States fire companies during the period shows a favourable balance of \$663,320, or an annual average of \$40.

are in excess of income.

The receipts from income of Canadian companies in 1892 to 1897 were respectively made up as follows:—

—	1892.	1893.	1894.	1895.	1896.	1897.
	\$	\$	\$	\$	\$	\$
Premiums and annuity sales.....	5,006,717	5,476,059	5,871,677	6,297,930	6,941,828	7,579,849

Total.....	6,180,727	6,757,090	7,295,609	7,806,579	8,519,050	9,572,063

And the expenditure during the same years was :

—	1892.	1893.	1894.	1895.	1896.	1897.
	\$	\$	\$	\$	\$	\$
Paid to policy-holders ..	2,438,040	2,265,703	2,567,454	3,070,440	3,244,495	3,641,627

From the above figures, therefore, it appears that out of every \$100 of income received the companies expended:—

OBJECT OF EXPENDITURE.	1892.	1893.	1894.	1895.	1896.	1897.

The following table gives the results of the valuation of the policies of some of the life insurance companies. The valuation was made in the office of the Superintendent of Insurance and on the basis of the H. M. Mortality Table of the Institute of Actuaries at $4\frac{1}{2}$ per cent interest, the pure premiums only being valued:—

The telephone system in Ontario, Quebec and Manitoba is largely under the control of the Bell Telephone Company of Montreal. In the other provinces a number of companies have undertaken to supply the public needs.

The returns received show that there were connected with the several system 44,000 miles of wire and 33,500 instruments, and that 72,500,000 messages were sent in 1893. The returns for 1897 do not vary greatly from those of 1893.

MILITIA.

By the Union Act, 1867, the command in chief of all naval and military forces of and in Canada is vested in the Queen, and the control of the same is placed in the Parliament of Canada.

At Confederation the Parliament of Canada established a Department of Militia and Defence, the first Minister being Sir George E. Cartier. The first Militia Act was passed in 1868, 31 Vic., Chap. 40, in accordance with the provisions of the fifteenth section of the Union Act, 1867.

The following is a statement of the regimental establishments of the permanent and active militia for the year ended 30th June, 1899. -

STATISTICS OF CHURCHES.

From the Census returns it is learned that there were 10,480 churches in Canada in April, 1891. This is an increase over 1881 of 1,828.

Divided among the denominations, the increase is distributed as follows:—Baptists, 324; Roman Catholics, 301; Church of England, 415; Methodists, 322; Presbyterians, 411. All other denominations, 55.

Of the total number of churches, the Methodists have nearly 32 per cent, the Presbyterians and Roman Catholics 17 per cent each, the Church of England 16 per cent, the Baptists 12 per cent, leaving 6 per cent for "all others."

Taking the total population, there is a church provided for every group of 461 persons. Taking the several denominations, the Roman Catholics have one church for every group of 1,115 of their persuasion, the Church of England one for every group of 386 of its adherents, the Methodists one for every group of 251, the Presbyterians one for every group of 428, and the Baptists one for every group of 240.

During the decade 1881-91, the Church of England appears to have been the most active in providing places of worship for the people, the Presbyterians coming next, the Baptists third, the Methodists fourth and the Roman Catholics fifth.

Territorially considered, the Church of England has provided 337 additional churches in the provinces east of Manitoba, and 78 in Manitoba and the other western provinces. Methodists have provided 227 in the eastern and 95 in the western provinces; Presbyterians, 302 and 109 respectively; Roman Catholics, 257 and 44; and the Baptists, 305 and 19 respectively.

Of their total increase, the Methodists have established 70 per cent in the five eastern provinces, and 30 per cent in the western provinces. The Presbyterians have built 73 per cent of their increase in the eastern, and 27 per cent in the western provinces. The Church of England 81 per cent in the east, and 19 per cent in the west. The Roman Catholics have apportioned their increase by building 85 per cent of it in the eastern, and 15 per cent in the western, and the Baptists 94 per cent and 6 per cent respectively.

provinces, the increased number of churches is distributed as follows—

increase.

The Roman Catholic Church in Canada has one cardinal, seven archbishops, twenty-three bishops, and about 1,500 clergy. The Church of England has two metropolitans and nineteen bishops, and about 1,000 clergy. The first colonial see established in the British Empire was at Nova Scotia, 1787. In 1793 the Canadas were erected into a metropolitan see. In 1839 the See of Toronto was established. In 1849 Prince Edward Island received its first Anglican bishop, and British Columbia received its first in 1859. New Brunswick became a see, independent of Nova Scotia, 1845.

Presbyterians became united as the Presbyterian Church in Canada in 1875. The Methodists were first united into one ecclesiastical organization in Canada in 1883.

Census returns showed that the number of clergymen of all denominations in Canada, in 1891, was 7,164, an increase of 735 in the ten years.

EDUCATION.

Under the British North America Act, 1867, the right to legislate matters respecting education was placed in the hands of the governments of the several provinces, the rights and privileges of denominational and separate schools then existing being specially protected. Subject to the approval of the Provincial Government, all regulations for the public and high schools are made by the Minister of Education.

These schools are under the control of local boards of trustees selected by the ratepayers, and are allowed to have none but certified teachers. Education of children between the ages of 7 and 13 is compulsory for not less than 100 days in the year, but the law is by no means as strictly enforced as is desirable in the educational interests of the province. The following table gives particulars respecting

the public schools of Ontario in the years 1877 to 1896, Catholic separate schools being included:—

QUEBEC.

educational matters in the province of Quebec are under the control of the Superintendent of Public Instruction, assisted by a council consisting of 35 members, and divided into committees for the management of Roman Catholic and Protestant schools respectively. The schools are maintained partly by local taxation and partly by Government grants, and are individually controlled by local boards, or by the clergy.

The following table gives the number of educational institutions of various grades in the province:—

BRITISH COLUMBIA.

educational system of British Columbia is free, undenominational and supported entirely by the Government. There is a Superintendent of Education, acting under the Provincial Secretary, and each school is locally controlled by trustees, elected by the ratepayers of the school district. The Lieutenant-Governor in Council is empowered to create new school districts as they become necessary, provided that no school district shall contain less than fifteen children of school age, viz., between 5 and 16 years of age.

The following table shows the number of schools, teachers and

NORTH-WEST TERRITORIES.

The educational system of the North-west Territories is under the control (within its attributes) of a Council of Public Instruction, consisting of the Executive Council (5) and five appointed members without votes.

The law provides that no school district shall comprise an area of more than 25 square miles nor shall it contain less than four resident heads of families, or a smaller school population than 12, i.e., children between the ages of 5 and 16.

No religious instruction is allowed in any public school before 3 o'clock in the afternoon, at which time such instruction as is permitted by the trustees may be given, parents having the privilege of withdrawing their children at that hour, if desired.

In the Year-Book, 1889, a concise history was given of all the principal higher educational institutions in the country, which it is not considered necessary, at present, to repeat, but the following summary table has been revised and shows that the value of their buildings, endowments, &c., was upwards of \$16,000,000, and that some 13,000 students were attending them. If the students attending these institutions, as well as those receiving tuition at a large number of private establishments, particulars of which cannot be obtained, are added to the pupils of the public, high and normal schools, it will be seen that the whole number of those undergoing instruction of some kind is considerably over one million, so that more than one-fifth of the population of Canada is at the present time receiving direct education.

Denominationally the higher educational institutions are as follows:

Kings College, Windsor; Bishop's College, Lennoxville, Bishop's College School, University of Trinity College, Toronto; St. John's College, Winnipeg; Wycliffe College, Toronto; Hellmuth Ladies' College, London, are under the control of the Church of England.

The University of Ottawa; St. Michael's College, Toronto; Laval University, Quebec; St. Boniface College, Winnipeg, are under control of the Roman Catholic Church.

The University of Queen's College, Kingston; Knox College Toronto; Presbyterian College, Montreal; Manitoba Presbyterian College, Winnipeg, and the Brantford Ladies' College, are under control of the Presbyterians.

The University of Mount Allison College; The Wesleyan Theological College, Montreal; The Wesleyan Methodist College, Winnipeg; The Whitby Ladies' College; The Alma Ladies' College, St. Thomas; The Wesleyan Ladies' College, Hamilton, are under the control of the Methodists.

Acadia College University, Wolfville, N.S.; McMaster University, Toronto; Woodstock College, and Moulton Ladies' College, are under the control of the Baptists.

INSANE.

The number of insane in Canada in 1891 as obtained by the Census was 13,355, of which 7,162 were males and 6,193 females.

In every 10,000 males there were 29·1 insane, and in every 10,000 females there were 26·1 insane.

The insane, classified according to civil condition, were: single, 9,506; married, 2,815; widowed, 721; unknown, 313.

Of the single, 5,441 were males and 4,065 females; of the married, males were 1,239 and females 1,576; of the widowed, 218 were males and 503 females, and of the unknown, 206 were males and 107 females.

According to ages there were 762 insane under 15 years old, 701 between 15 and 19 years old; 2,429 between 20 and 29; 2,643 between 30 and 39 years; 5,369 between 40 and 69 years; 878, 70 years and over, and 576 whose ages were unknown.

Under 15 years the percentage was 0·04; between 15 and 19 years it was 0·13; between 20 and 29 it was 0·28; between 30 and 39 it was 0·45; and between 40 and 69 years it was 0·57 per cent, showing a larger proportion of the insane among the population between 40 and 69 than among other age groups.

According to nativity, 5,853 of the insane were born in Canada of parents who were both born in Canada; 2,793 were born in Canada of foreign-born parents, 612 were born in Canada of parents one of whom was born in Canada, and 3,044 were foreign-born: 1,053 were born in Canada, but the birth-places of their parents were unknown.

These constitute two groups: 1st, those whose parents were foreign-born, and 2nd, all the others. The first group have 90 insane in every 10,000 of the foreign-born population. The second group have 18 insane in every 10,000 of the native-born.

Divided by provinces the insane are distributed as follows:—

	Census of 1891 Per 10,000 of the people
British Columbia	93·2 insane.
Manitoba	12
New Brunswick	27
Nova Scotia	30
Ontario	28
Prince Edward Island	40
Quebec	30
Territories	5

With the exception of Nova Scotia and Quebec, the principle adopted throughout the Dominion in the treatment of insane is that known as State-cure, and even in the case of the two provinces named the institutions are subject to the supervision of Government inspectors. Nova Scotia has the county farm system in part. Quebec has the farming-out system, the institutions being managed by Religious Communities, and in one instance by an Incorporated Company.

There are 18 asylums for the insane in Canada, most of which are supported entirely by Government, aided in some cases by municipalities, and the following table gives particulars of the number of patients, &c.:—

In Ontario, on 30th September, 1897, there were 4,909 persons in the provincial asylums, and 16 in the Homewood Retreat, Guelph; 26 insane convicts in Kingston Penitentiary, and 41 insane persons in the common jails, making a total of 4,992 persons of unsound mind under public accommodation, while there were 214 applications for admission on hand, making a total of 5,206 persons of unsound mind known to the Provincial Government. The Census of 1891 gives the total number in the province as 5,855.

The following table gives such particulars as are available concerning the principal public charitable institutions in Canada:—

* In British Columbia, in addition to the divorce, two judicial separations have been granted, one in 1892 and one in 1893.

In Ontario, Quebec, Manitoba and the North-west Territories divorce can only be obtained by legislation—an Act of the Parliament of Canada being necessary. The rules of the Senate touching divorce require the production of such evidence in support of the application for relief as would be deemed sufficient in a court of law; in other re-
s the matter is dealt with as for an ordinary private Act of Parlia-

CHINESE.

Statement showing the transactions under the Chinese Immigration Act to the 30th June, 1897.

The Act went into force as respects arrivals by vessels sailing from ports in North America on the 20th day of August, 1885, and as respects arrivals by other vessels on the 1st day of January, 1886, vide 48-49 Victoria, chapter 71.

The Act as it appears in the Revised Statutes, chapter 67 (1886), is slightly changed from the original. There have been since then two amendments thereto, viz., as per 50-51 Victoria, chapter 35 (1887), and 55-56 Victoria, chapter 25 (1892).

The administration of the Act was by Order in Council of 1st September, 1885, assigned to the Department of Customs and transferred to the Department of Trade and Commerce by Order in Council of the 13th of March, 1893.

The annual revenue, expenditure, &c., under the Act has been as follows:—

During the same period 8,702 have taken out certificates of leave or registered for leave up to 30th June, 1897, while a very large number have left the country without so registering, having no intention of returning, so that, for this latter reason, the number remaining in the country is uncertain.

According to the Census returns of 1891 for Canada, the birth rate in British Columbia was 23·16 per thousand of the population, and the death rate was 13·94 per thousand. In Manitoba the birth rate was 32·53 per thousand and the death rate 19·36 per thousand. In New Brunswick the birth rate was 27·70 per thousand and the death rate 13·36 per thousand. In Nova Scotia the birth rate was 25·41 per thousand and the death rate 14·57 per thousand. In Ontario the birth rate was 24·50 per thousand and the death rate was 11·30 per thousand. In Quebec the birth rate was 36·86 per thousand and the death rate 18·91 per thousand. In Prince Edward Island the birth rate was 24·45 per thousand and the death rate 12·26 per thousand. In the North-west Territories the birth rate was 24·98 per thousand and the death rate 7·32.

Manitoba is the banner province, having the second largest birth rate and the second lowest death rate, the result being that the prairie province has the largest excess of births over deaths.

The following table gives the births, deaths and marriages in each of the respective countries, 1895:—

PENITENTIARIES.

For the punishment of criminals there are five penitentiaries in the Dominion, situated at Kingston, Ontario; St. Vincent de Paul, Montreal, Que.; Dorchester, N.B.; Stony Mountain, Man.; and New Westminster, B.C. The total number of persons confined in these five penitentiaries on the 30th June, 1897, was 1,382, of whom 1,349 were males and 33 were females.

The following table gives the number of convicts remaining in each of the penitentiaries on the 30th June of each year, the number discharged in each year, and the causes.

The provincial governments of Nova Scotia and New Brunswick do not publish any returns of persons in their prisons, consequently application was made to the sheriffs of the several counties, almost all of whom responded, and thanks are due to them for their attention. One county (Guysboro') in Nova Scotia, made no returns.

CRIMINAL STATISTICS.

The judicial system of Canada has been described on pages 19 and 20.

The Act authorizing the collection and compilation of Criminal Statistics came into operation in 1876. The returns are yearly becoming more valuable, greater care being exercised in the collection. The whole system has been reviewed since the year 1893, with the result of adding to the returns the criminals dealt with by the North-west Mounted Police.

The returns are compiled under two headings: "Indictable Offences" and "Summary Convictions." The first includes all felonies and misdemeanours tried by the competent courts and juries, whether following the general procedure in accordance with Chap. 174, R.S.C., or the summary procedure applicable to certain cases as provided by the Acts relating to "Speedy Trials," "Summary Trials by Consent" and "Juvenile Offenders," Chaps. 175, 176 and 177, R.S.C. The second includes all minor offences tried by justices of the peace, police magistrates or stipendiary magistrates under Chap. 178, R.S.C.

The various indictable offences which comprise the more serious crimes, are divided into six classes, as follow:—

- Class I. Offences against the person
- II Offences against property, with violence.
- III Offences against property, without violence.
- IV. Malicious offences against property
- V. Forgery and offences against the currency.
- VI. Other offences not included in the foregoing classes.

And the following list gives the principal crimes and offences that are included in each class:—

CLASS I.—OFFENCES AGAINST THE PERSON.

Murder and attempt to murder.
 Manslaughter
 Shooting, stabbing, wounding, &c.
 Rape and other offences against females.
 Unnatural offences
 Bigamy
 Abduction
 Assault, aggravated and common.
 Other offences against the person.

CLASS II.—OFFENCES AGAINST PROPERTY, WITH VIOLENCE.

Robbery, with violence.
 Burglary, house and shop breaking.
 Other offences against property with violence.

CLASS III.—OFFENCES AGAINST PROPERTY, WITHOUT VIOLENCE.

Horses, cattle and sheep-stealing.
 Larceny.
 Embezzlement.
 Felonious receiving.
 Fraud.

CLASS IV. MALICIOUS OFFENCES AGAINST PROPERTY.

Malicious injury to horses, cattle and other property
 Arson, burning, &c.

CLASS V. FORGERY AND OFFENCES AGAINST THE CURRENCY.

Forgery
 Offences against the currency.

CLASS VI.—OTHER OFFENCES NOT INCLUDED IN THE FOREGOING CLASSES.

Carrying unlawful weapons.
 Offences against gambling, municipal, liquor and other Acts.
 Keeping disorderly houses and houses of ill fame.
 Perjury
 Smuggling, and offences against the revenue
 Other offences not included in the above classes.

The number of cases tried by Stipendiary Magistrates and Inspectors of the North-west Mounted Police since 1892 is not given separately, but is included in the total returns of the Territories.

It must be borne in mind that the number of convictions does not represent a like number of individual criminals, because any persons

convicted more than once during the year, whether for the same or a different offence, is counted as a separate person for each conviction; as is well known, the same persons are convicted several times a year for such offences as drunkenness, vagrancy and similar offences.

By provinces, the totals given above, not including the North-west Mounted Police returns, excepting for 1893 to 1897, are distributed as under, for the period 1886-97:—
